

Kurri Kurri Lateral Pipeline Classification Decision

[Kurri Kurri Lateral Pipeline classification decision | Australian Energy Regulator \(AER\)](#)
aer.gov.au

An IMMEDIATE MORATORIUM & ROYAL COMMISSION is essential, for independent expert examination of this

Kurri Kurri Lateral Pipeline Classification Decision as there is no way that this dog's breakfast of a plan is consistent with the The National Gas Objective - to promote efficient investment in, and efficient operation and use of, covered gas services for the long-term interests of consumers of covered gas with respect to

(a) price, quality, safety, reliability and security of supply of covered gas; and (b) the achievement of targets set by a participating jurisdiction—

(i) for reducing Australia's greenhouse gas emissions; or

(ii) that are likely to contribute to reducing Australia's greenhouse gas emissions.

Instead it's all about Outrageous Costs, Folly of the Location, Gas Availability Constraints, a National Security Nightmare!

The Regulator is pretending that they know what they're doing in deciding whether this is a Transmission or Distribution Pipeline - when AEMO has previously said the opposite to AER's decision.

It's absolutely clear that the Regulator's whole ISP is flawed - with NO ENGINEERING FACTS, NO SCIENTIFIC RIGOUR, NO INTEGRITY, NO ETHICS, NO SOCIAL LICENCE, NO RELIABILITY, NO SECURITY, NO AFFORDABILITY.

'ECONOMIC LICENCE HAS BEEN FORGED!'

The ISP is:-

- Not Fit For Purpose
- An Unmitigated Disaster
- Is Fatally Compromised
- Has NO Independence
- IS DEAD & BURIED!

On obvious National Security risks alone this is a disaster - fulfilling China's Energy Dream - Patricia Adams

"Carbon dioxide reduction only make sense for those it (China) wishes to harm & supplant."

<https://www.thegwpf.org/content/uploads/2021/12/Adams-Chinas-Energy-Dream.pdf>

Linking to JEMENA - 60% owned by our MOST HOSTILE ENEMY is deliberate SABOTAGE OF AUSTRALIA'S CRITICAL ENERGY INFRASTRUCTURE - JUST LIKE ELECTRANET'S INSIDIOUS 46.56% CONTROLLED PROJECT ENERGY CONNECT.

The KURRI KURRI LATERAL PIPELINE (KKLP) connects to the Hunter Power Project at Kurri Kurri - & to the existing **JEMENA Sydney to Newcastle pipeline** near Newcastle.

JEMENA is 60% owned by the CHINESE COMMUNIST PARTY'S STATE GRID CORPORATION OF CHINA and 40% by Singapore Power.

Additionally, WHO WILL OPERATE APA's Kurri Kurri Lateral Pipeline as **APA uses CHEUNG KONG'S AGN to operate their Gas infrastructure - which is also a NATIONAL SECURITY DISASTER!!**

Even pro RenewaBULL Ted Woodley asks:

"Why build a second gas power station beyond the end of the skinny SNGP that has been constrained almost since its completion in 1982?

HPP (and Colongra) will be able to run on diesel as a backup, but that is very expensive, highly polluting, reduces HPP's output to 566 MW (<https://www.snowyhydro.com.au/news/statement-hunter-power-project-update/>), and is limited by storage tank volumes (about a day at full output, though replenishable).

The fundamental reason for building a gas power station is to provide dispatchable, on-demand energy

24/7 from gas.

Neither of Snowy Hydro's NSW gas power stations can do this.

Why spend more than \$2 billion of taxpayer's money on a power station that can only run on gas for 10 hours and then takes a day or more to refill, provided gas is available from the heavily constrained SNGP; can never run on hydrogen (Snowy Hydro instructed APA to not build the storage to be capable of storing hydrogen because it "would be uneconomic"); will be emitting greenhouse gases through to and potentially beyond 2050; will be soundly outcompeted by cheaper and nimbler batteries; and will never pay for itself?

There are other locations in NSW where a 660 MW gas power station could have been built for a billion dollars or so less than HPP, and run 24/7."

Remarkable photos expose folly of the location of Snowy's Hunter gas power plant | RenewEconomy - 18/2/25

AER'S EVIL PLANS ARE THE ANTITHESIS OF:

Jeremiah 29:11: 'For I know the plans I have for you, says the LORD, plans for welfare and not for evil, to give you a future and a hope.'

Yours Sincerely,

Lynette LaBlack
