## **Statement of reasons: Roma to Brisbane Annual Tariff Variation**

The AER approves Roma to Brisbane's 2025–26 tariff variation notice which contains tariffs that will commence on 1 July 2025. Roma to Brisbane's approved tariffs are set out on [our website](#).

In 2025–26, Roma to Brisbane's transmission reference tariffs will increase by 3.7%. The transmission tariff increases are driven by inflation, the real price path set in the 2022–27 access arrangement and the annual updates to the regulated rate of return.

The AER found that the tariff variation is consistent with the mechanisms set in Chapter 4 of its 2022–27 access arrangement and is satisfied the tariff variation proposal is consistent with the access arrangement.

We note gas retailers ultimately determine how these underlying network tariffs are reflected in the retail prices offered to customers. Transmission charges make up approximately 3% of the retail bill.
