### EXEMPTION APPLICATION FORM

If you experience any issues with accessibility of this document, please call 1300 585 165 or email [AERnonschemeexemptions@aer.gov.au](mailto:AERnonschemeexemptions@aer.gov.au)

## Instructions

If the pipeline is owned, controlled or operated by a joint venture, please provide an attachment with the legal names and ACN / ABN for each of the entities involved.

Documents required to obtain a Part 10 (Prescribed transparency information) Exemption:

1. Complete Parts A, B and E of this form for new applications.
2. If the application is made by an authorised agent, proof of authority for the agent to act on behalf of named applicants.
3. Attach any additional information/documents that you consider substantiate that the pipeline meets the criteria for the exemption. This should include any information or documents required under any Exemption Guideline published by the AER and in force at the time of application.

If you are the service provider of a non-scheme pipeline that has been previously granted an exemption by the AER under Part 23 of the National Gas Rules (NGR), you will need to apply for a new exemption under Part 10 of the NGR before your exemption under Part 23 expires.

If a pipeline has been previously granted an exemption by the AER and would like the conditions of the exemption to be varied, complete Parts A, C and E of this form.

If a pipeline has been previously granted an exemption by the AER and would like the exemption to be revoked, complete Parts A, D and E of this form.

Applications marked attention Pipeline Administrator, can be submitted:

- electronically to [AERnonschemeexemptions@aer.gov.au](mailto:AERnonschemeexemptions@aer.gov.au)
- by post to GPO Box 3131, Canberra, ACT 2601

## Dissemination of data provided

Data provided in Parts A, B, C and D together with any appendices and attachments will be included on the AER's public register. Part E will not be made public.

The entire application (Parts A, B, C, D and E) together with any appendices and attachments will be kept on file with the AER, including for the purposes of its gas scheme register.

If you have any concerns about information which is to be published on the public register, please contact the AER.

## Part B: New Part 10 exemption information

*This information will be included in the AER's public register*

#### CLASS OF EXEMPTION

There are 2 categories of exemption:

Category 1: exemption from the obligation to publish information under Division 2 Subdivision 2 Part 10 of NGR and exemption from the obligation to publish a user access guide (rule 105C(8) Part 11 of NGR) in relation to the pipeline.

Category 2: exemption from the obligations to publish financial information, historical demand information and a cost allocation methodology under Rule 101D Part 10 of NGR.

Exemption(s) sought (*can be more than one*)

☐

Category 1: The pipeline is not a third-party access pipeline

☒

Category 2: The pipeline is a single user pipeline or the following criteria apply:

- a) in the case of a transmission pipeline – the nameplate rating of the pipeline is less than 10 TJ/day;
- b) in the case of a distribution pipeline – the maximum daily capacity of the pipeline under normal operating conditions is less than 10 TJ/day.

Have you previously applied for an exemption in relation to this pipeline (including under Part 23 of NGR)?

☒

Yes

☐

No

If Yes, date of AER letter in response to application

30 November 2022

Any further details and/or list of supporting documents (attached) pertaining to this application:

Moama distribution system receives natural gas from the Echuca Gate Station. Whilst this Gate station serves two townships and has a nameplate rating of 14TJ/day, Moama distribution system is not designed to cater for throughput greater than 10TJ/day. An engineering letter has been prepared and attached in this regard, refer attachment A.

As the current drafting of the National Gas Rules does not take the above arrangement into consideration, an engineering report has been prepared and attached as part of this application to evidence limitation of the network's ability to exceed 10TJ/day.
