

AER - ROMA BRISBANE PIPELINE: 2027-32 ACCESS ARRANGEMENT REFERENCE SERVICE PROPOSAL

30 JULY 2025

The Energy Users' Association of Australia (EUAA) is the peak body representing Australian commercial and industrial energy users. Our members are the engine room of the Australian economy, producing many of the products that households and business use every day including bricks, glass, steel, aluminium, paper, food and beverages. Combined, our members employ over 1 million Australians, pay billions in energy bills every year and in many cases are exposed to the fluctuations and challenges of international trade.

EUAA members are focussed on making products that meet their own customers' requirements where energy is just one input to the process albeit a critical one. Their expectation is that the energy industry continues to provide energy services that are fit for purpose and consistent with the NEO so that our members can continue to provide a fit for purpose product for their customers.

Thank you for the opportunity to make a short submission on this matter.

The EUAA is a member of the Stakeholder Reference Group established by APA to help shape the 2026 to 2031 Roma to Brisbane pipeline access arrangement. We have very much appreciated the comprehensive engagement that APA is undertaking with the SRG and described in Chapter 5 of the proposal.

We support the proposal.

Do not hesitate to be in contact with EUAA Director Policy and Regulation Mark Grenning, should you have any questions.

Andrew Richards
Chief Executive Officer
