Re: Part 24 National Gas Rules exemption for Atlas Gas Pipeline

I refer to your application dated 31 January 2024 seeking a conditional exemption from Part 24 of the National Gas Rules (NGR) for the Atlas Gas Pipeline.

The AER has assessed your application and, on the basis of the information that you have provided, has determined to grant the Atlas Gas Pipeline a conditional exemption (*category 2 single-user facility*), taking effect after the current exemption expires on 1 March 2024 and apply for a period of five years to 1 March 2029.

As set out in subrule 611(10) of Part 24 of the NGR, please notify the AER without delay if circumstances change such that the pipeline no longer qualifies for this exemption.

Subrule 611(9) of Part 24 requires the AER to establish, publish and maintain a register of Part 24 exemptions. The new exemption for the Atlas Gas Pipeline will be published on the Part 24 exemptions register on the [AER's website](#) after the current exemption expires.

As required by subrule 611(8) of the NGR, AER staff will contact the Australian Energy Market Operator to inform it of this determination.

Please contact [REDACTED], if you have further questions regarding this matter.

Yours sincerely

[REDACTED]
