Sasha Jergic
Senior Analyst
Australian Energy Regulator

Dear Mr Jergic,

Re: DNSP Annual Benchmarking Report

TasNetworks has reviewed the files provided by the AER and Quantanomics and is comfortable with the updates and inputs used for the 2025 Annual Benchmarking Report. We do wish to note the inherent difficulties associated with benchmarking activities for networks with varying operating environments and request that the AER continue to note that TasNetworks distribution network is an outlier amongst our peers regarding the lower amounts of sub-transmission capacity.

If you have any questions in regard to this submission, please contact Sam Riewoldt, Senior Regulatory Analyst at [REDACTED]

Yours sincerely

Matt Clarke
Acting Head of Regulation
