Subject: calculating the SSO for DMO 8

To whom it may concern,

I wish to raise a concern and consideration of Network Supply Availability Charges by retailers be mandated as a flat fee (specific to the specified Network - ie Essential Energy) the same across all retail plans for the DMO 8.

This will ensure it is no longer used as a shareholder growth asset for an essential service by retailers.

This will also assist AER to reduce complaints and investigations by the Electricity Ombudsman, especially with the pending roll out of the "Solar Sharer" plans.

I thank you for your consideration in this important matter.

If you have any questions, or need clarification please do not hesitate to contact me.

Thanks and regards,

Dane Colson
