## 2026-31 Electricity Distribution Price Review Revised Proposal

Attachment 01-02

Response to the AER's draft decision - Claims for confidentiality

Page intentionally blank

## Overview

The Australian Energy Regulator (**AER**) served Jemena Electricity Network (Vic) Ltd (**JEN**) a final Electricity distribution price review regulatory information notice (**EDPR RIN**) on 17 October 2024. Section 2.4 of the RIN requires JEN to make claims for confidentiality over any JEN information in accordance with the requirements of the AER's confidentiality guideline.

Section 1 below, sets out specific sections of JEN's revised regulatory proposal—covering the 1 July 2026 to 30 June 2031 regulatory control period—that JEN claims to be confidential and the basis of the claim as set out in the AER's confidentiality guideline.<sup>1</sup>

JEN has provided reasons detailing how and why disclosure of the information would cause detriment to the business or to our customers. JEN understands that this confidential information being available to the AER to perform its functions under the rules provides a public benefit. JEN has assessed that, in all identified cases, JEN's confidentiality reasons, together with the benefits already realised through the AER's confidential use of this data, are not outweighed by any additional public benefit to disclosure of the information.

JEN has marked confidential information in documents by highlighting the content in yellow text [REDACTED]. It has not been possible to highlight all diagrams or elements included as pictures in documents. In these instances, JEN has made it clear in section 1 that the relevant item is subject to a confidentiality claim.

JEN has marked confidential information in spreadsheets by formatting the cells as [REDACTED].

---

<sup>1</sup> AER, *Better Regulation, Confidentiality Guideline*, August 2017.

# 1. EDPR revised proposal confidentiality claims

Title page and paragraph number of the document	Description of the confidential information	Topic the confidential information relates to	Confidentiality category	Why the confidential information falls into the selected category	How and why detriment would be caused from disclosing the confidential information	Why the identified detriment is not outweighed by the public benefit
<b>JEN - RP - Att 03-03 - Innovation Fund - Letters of Support – 20251201</b> Whole document	Individual names	Personal information	Personal information	Reveals employee names	Disclosure of this information would contravene privacy act.	There is no material public benefit to disclosing this employee information
<b>JEN - RP - Att 05-01A Technology expenditure addendum – 20251201</b> Appendix A	End user computing – tablet inventory	Device IDs and serial numbers	Information affecting the security of the network.	Information affecting the security of the network	If disclosed may jeopardise network security	JEN is not aware of any public benefit in publicly disclosing this information that could outweigh the detriment
<b>JEN - RP - Att 06-01 Operating expenditure – 20251201</b> Section 4.4.2	Costs of Annual Validation Testing (AVT) for the Coolaroo REFCL in 2024-25	Contractor costs of providing the AVT	Market sensitive cost inputs	Publication of this information would affect JEN's ability to obtain competitive prices in the future and would adversely affect our ability to negotiate fair market prices	Publication of this information may influence tenders in the future	JEN is not aware of any public benefit in publicly disclosing this information that could outweigh the detriment
<b>JEN - RIN - Support - Digitising Network Switching - CBA Model – 20250415</b> Whole document	Information about costs, quotes provided by vendors, JEN's estimates of resource efforts for specific work tasks.	Cost estimates and vendor information	Market-sensitive information	Publication of this information would affect JEN's ability to obtain competitive prices in the future and would adversely affect our ability to negotiate fair market prices	Disclosure of this information may harm JEN's ability to procure competitively priced ICT services in the future and impact the legitimate commercial interests of JEN.	JEN is not aware of any public benefit in publicly disclosing this information that could outweigh the detriment
<b>JEN - RIN - Support - Dynamic Network Planning with Automation - CBA Model – 20250415</b> Whole document	Information about costs, quotes provided by vendors, JEN's estimates of resource efforts for specific work tasks.	Cost estimates and vendor information	Market-sensitive information	Publication of this information would affect JEN's ability to obtain competitive prices in the future and would adversely affect our ability to negotiate fair market prices	Disclosure of this information may harm JEN's ability to procure competitively priced ICT services in the future and impact the legitimate commercial interests of JEN.	JEN is not aware of any public benefit in publicly disclosing this information that could outweigh the detriment
<b>JEN - RIN - Support - Contract Lifecycle Management - CBA Model – 20250415</b> Whole document	Information about costs, quotes provided by vendors, JEN's estimates of resource efforts	Cost estimates and vendor information	Market-sensitive information	Publication of this information would affect JEN's ability to obtain competitive prices in the future and would adversely	Disclosure of this information may harm JEN's ability to procure competitively priced ICT services in the future and impact the legitimate commercial interests of JEN.	JEN is not aware of any public benefit in publicly disclosing this information that could outweigh the detriment

## 2. Proportion of confidential information

Section 3.3 of the AER's confidentiality guideline requires NSPs to complete the proportion of confidential material notice as part of the manner in which they must make confidentiality claims. JEN must specify the number of pages in their submissions which contain a confidential claim and the number of pages which do not. Table 2–1 contains the required information for our regulatory proposal covering the next regulatory period.

For the purposes of this calculation, JEN has made the assumption that one sheet in an excel template equals one page. JEN has also provided totals excluding supporting documentation and appendices. The relevant page count is provided at the bottom of Table 2-1.

**Table 2–1: Proportion of confidential information**

Submission title	No of pages of submission that include information subject to a claim of confidentiality	No of pages of submission that do not include information subject to a claim of confidentiality	Total number of pages of submission	Percentage of pages of submission that include information subject to a claim of confidentiality	Percentage of pages of submission that do not include information subject to a claim of confidentiality
