By email: gaspipelineexemptions@aer.gov.au

Dear [REDACTED],

Part 10 Category 2 exemption – Braemar 2 Pipeline

We refer to the Braemar 2 Pipeline Category 1 and Category 2 exemption under Part 10 of the National Gas Rules (“NGR”) granted to Arrow (Southern Generation) Pty Ltd and Arrow Braemar 2 Pty Ltd by the Australian Energy Regulator (“AER”) on 12 July 2023.

Further to our recent email exchanges and our call with [REDACTED] last Thursday 8 February 2024, we have identified and understand that the Braemar 2 Pipeline is not eligible for a Category 2 exemption under Part 10 of the NGR.

Accordingly, we request that the AER re-assess the Category 2 exemption.

Based on our recent correspondence, we understand the Braemar 2 Pipeline still qualifies for the Category 1 exemption under the NGR and assume that the Category 1 exemption will therefore remain in place.

If you have any questions, please contact [REDACTED] or via email at [REDACTED]

Yours sincerely

[REDACTED]
