Executive Summary 3

Independent Reasonable Assurance Report to the Directors of Energex Limited 5

Detailed Findings 8

Appendix – Management Responses to Findings..... 28

Executive Summary

1. Introduction

The Australian Energy Regulator (the “AER”) published the *Ring-fencing Guideline – Electricity Distribution* on 30 November 2016 under the National Electricity Rules (the “NER”) with amendments made on 17 October 2017 and 3 November 2021 (the “Guideline”). The Guideline requires functional separation of regulated and competitive business activities to promote competition in the provision of contestable electricity services.

Under clause 6.2.1c of the Guideline, Deloitte Touche Tohmatsu (“Deloitte”) has been engaged per the engagement letter between Energex Limited and Deloitte dated 20th January 2025 as the qualified independent authority to provide a reasonable assurance opinion on whether Energex Limited’s Ring-fencing Compliance Report with respect to compliance with 6.2.1a of the Guideline is, in all material respects, fairly presented as evaluated against 6.2.1b of the Guideline for the period from 1 January 2024 to 31 December 2024.

2. Summary of Findings

The following table summarises observations and recommendations against the Obligations where an exception was identified. The rating of each Obligation has been applied in accordance with *Section 1.3*.

Management responses to the observations and recommendations are included in the Appendix to this report. This information does not form part of the Independent Assurance Report. The information included in the Appendix has not been subjected to the test procedures performed, accordingly, Deloitte does not express an opinion on it.

No.	Guidance Obligation Reference	Results of Testing	Recommendations	Rating	Material Breach
1	4.3.2	Based on our testing performed, we have not identified any matters of exception of the disclosure of information, except of those reported under Guideline 6.3. Noting that it is not possible to completely mitigate the risk of human error in any process or activity. Through our testing we identified that while training is delivered for new staff members, this is not regularly refreshed and tested.	We recommend that a process is implemented to regularly refresh and reinforce employees’ understanding of Ring-fencing guidelines through robust and timely training to reduce the risk of breaches.	No Exception	N/A
2	6.1	Based on our testing performed, we have not identified any matters of exception of the disclosure of information. We do however note the following improvement opportunity in line with the recommendation noted at obligation 4.3.2. Noting that it is not possible to completely mitigate the risk of	We recommend that a process is implemented to regularly refresh and reinforce employees’ understanding of Ring-fencing guidelines through robust and timely training to reduce the risk of breaches.	No Exception	N/A

No.	Guidance Obligation Reference	Results of Testing	Recommendations	Rating	Material Breach
		human error in any process or activity. Through our testing we identified that while training is delivered for new staff members, this is not regularly refreshed and tested.			

1.3 Rating Applied

The ratings applied to the results of our testing are defined below based on Deloitte’s interpretation of the Guideline. The evaluation of the results of our tests as they relate to the Obligations is based on applying our professional judgement and considering the available facts and circumstances.

No Exception	Requirements of the Obligation have been met with no or only minor improvement opportunities. Any findings noted are considered minor and require routine efforts to correct in the normal course of business.
Exception	The requirements of the Obligation have not been fully met. Findings noted require remedial action.

Independent Reasonable Assurance Report to the Directors of Energex Limited

Opinion

We have undertaken a reasonable assurance engagement on Energex Limited (“Energex”) Ring-fencing Compliance Report, with respect to compliance with 6.2.1a of the Guideline, as evaluated against 6.2.1b of the Guideline, in all material respects, for the period from 1 January 2024 to 31 December 2024.

In our opinion, the accompanying Energex’s Ring-fencing Compliance Report with respect to compliance with 6.2.1a of the Guideline is, in all material respects, fairly presented as evaluated against 6.2.1b of the Guideline for the period from 1 January 2024 to 31 December 2024.

Basis for Opinion

We conducted our reasonable assurance engagement in accordance with Standard on Assurance Engagements ASAE 3100 *Compliance Engagements* (“ASAE 3100”) issued by the Auditing and Assurance Standards Board.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Cost Allocation Methodology Regulatory Period Assessed

Without modifying our opinion, we draw attention to the regulatory period covered under Section 3.2.2 of the Guideline within this report being 1 January 2024 to 30 June 2024, which is different to the compliance period of 1 January 2024 to 31 December 2024. Compliance with the Cost Allocation Method for the remaining regulatory period from 1 July 2024 to 31 December 2024 will be covered under the Regulatory Information Notice (RIN) reporting for the 1 July 2024 to 30 June 2024 regulatory period. This approach is in line with Ring-Fencing guideline 6.2.1(d) which allows for a difference between the regulatory information notice period and the Ring-Fencing compliance period regarding the information in Section 3.2.2.

Our Independence and Quality Management

We have complied with the independence and relevant ethical requirements which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour, including those contained in APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)*.

Our firm applies Australian Auditing Standard ASQM 1 *Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements*, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Responsibilities of The Directors

The Directors are responsible for:

- a) providing the Ring-fencing Compliance Report with respect to the outcome of the evaluation of the compliance activity against 6.2.1a of the Guideline for the period from 1 January 2024 to 31 December 2024;
- b) the compliance activity undertaken to meet 6.2.1a of the Guideline;
- c) identifying suitable compliance requirements as specified in the Guideline as required by the AER;
- d) identifying risks that threaten compliance with 6.2.1a of the Guideline being met; and
- e) the identification, design and implementation of controls to enable compliance with 6.2.1a of the Guideline to be met and to monitor ongoing compliance.

Responsibilities of the Assurance Practitioner

Our responsibility is to express an opinion on Energex's Ring-fencing Compliance Report with respect to compliance with 6.2.1a of the Guideline, in all material respects, as evaluated against 6.2.1b of the Guideline for the period from 1 January 2024 to 31 December 2024. ASAE 3100 requires that we plan and perform our procedures to obtain reasonable assurance about whether Energex's Ring-fencing Compliance Report with respect to compliance with 6.2.1a of the Guideline is, in all material respects, fairly presented as evaluated against 6.2.1b of the Guideline for the period from 1 January 2024 to 31 December 2024.

An assurance engagement to report on the Energex's Ring-fencing Compliance Report with respect to compliance with 6.2.1a of the Guideline involves performing procedures to obtain evidence about the compliance activity and controls implemented to meet 6.2.1a of the Guideline. The procedures selected depend on our judgement, including the identification and assessment of risks of material deficiencies in the compliance framework or material misstatements in Energex's Ring-fencing Compliance Report.

Our procedures included, but were not limited to:

- Inquiring with Energex's personnel regarding controls in place to enable Energex to comply with the Obligations;
- On a sample basis, observing the control being performed, and/or inspecting documentation to evidence the design, implementation and effectiveness of the controls;
- Inquiring with management whether they are compliant with the Obligations, and corroborating our inquiry with the results of our test procedures.
- Evaluating the content of the Ring-fencing Compliance Report, to determine whether it is fairly presented, with respect to the evaluation of the compliance activities against 6.2.1b of the Guideline.

Inherent Limitations

Because of the inherent limitations of an assurance engagement, together with the internal control structure it is possible that fraud, error, deficiencies in the compliance framework or misstatements in Energex's Ring-Fencing Compliance Report may occur and not be detected.

A reasonable assurance engagement for the period from 1 January 2024 to 31 December 2024 does not provide assurance on whether compliance with the Guideline will continue in the future.

Restricted Use

This report has been prepared for use by Directors of Energex for the purpose of meeting the reporting requirements to the AER. We disclaim any assumption of responsibility for any reliance on this report to any person other than Energex or for any purpose other than that for which it was prepared. However, we understand that a copy of the report has been requested by the AER, in accordance with 6.2.1c of the Guideline. We agree that a copy of the report may be provided to the AER for their information in connection with this purpose but only on the basis that we accept no duty, responsibility or liability to the AER in relation to the report. We accept no duty, responsibility or liability to any party, other than Directors of Energex in connection with the report or this engagement.

Detailed Findings

The descriptions of the tests of compliance that were performed, findings relating to the tests of compliance or particular aspects of the engagement, our recommendations and conclusion of whether there has been a breach of the requirements of the Guideline are described below.

The rating of each Obligation has been applied in accordance with *Section 1.3*.

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
1	Legal separation	3.1 (a)	A DNSP must be a legal entity.	Key Control(s): <ul style="list-style-type: none"> All EQL Group companies have separate ABNs and are registered with ASIC Energex Registered Australian Business Number (ABN) Energex Constitution. Test Performed: <ul style="list-style-type: none"> Parent: Performed a search of the ASIC register for Energy Queensland Limited using the ABN 966125355583 DNSP: Performed a search of the ASIC register for Energex Limited using the ABN 40078849055 (trading name: Energex) Performed a search on the ASIC register for Yurika Pty Ltd using the ABN 19100214131 Cross checked the registered ABN against the Distribution Network Services Provider License. We inspected the Energex Constitution 	Based on the testing performed we have not identified any matters of exception against the obligation	N/A	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
2	Legal separation	3.1 (b)	A DNSP may provide distribution services and transmission services, but must not provide other services.	Key Control(s): <ul style="list-style-type: none"> A separate affiliated entity Yurika was established to perform "other services" outside distribution services which are performed by Energex. Test Performed: <ul style="list-style-type: none"> Tested a sample of Energex revenue transactions to detect instances of other services being provided by the DNSP. Reviewed the customer feedback and complaints register for any indication that Energex has been providing other services 	Based on the testing performed we have not identified any matters of exception against the obligation	N/A	No Exception
3	Separate accounts	3.2.1 (a)	A DNSP must establish and maintain appropriate internal accounting procedures to ensure that it can demonstrate the extent and nature of transactions between the DNSP and its affiliated entities.	Key Control(s): <ul style="list-style-type: none"> SAP accounting system which contains separate general ledger accounting rules for recording transactions between Energex and its affiliated entities. A monthly reconciliation is performed of transactions between affiliated entities. Test Performed: <ul style="list-style-type: none"> Performed a process walk through to understand the process in place to understand financial system configuration to accurately records the entire range of transactions between the affiliated entities. 	Based on the testing performed we have not identified any matters of exception against the obligation.	N/A	No Exception
4	Cost allocation and attribution	3.2.2 (a), (b)	(a) A DNSP must allocate or attribute costs (including costs allocated or attributed to the DNSP by a parent entity) to distribution services in a manner that is consistent with the Cost	Key Control(s): <ul style="list-style-type: none"> Cost are allocated using the AER approved Energex Cost Allocation Methodology (CAM) 	Based on the testing performed, we have not identified any matters of exception against the obligation	N/A	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
			<p>Allocation Principles and its approved CAM, as if the Cost Allocation Principles and CAM otherwise applied to the allocation and attribution of costs between distribution services and non-distribution services.</p> <p>(b) A DNSP must only allocate or attribute costs to distribution services in accordance with clause 3.2.2(a), and must not allocate or attribute other costs to the distribution services it provides.</p>	<ul style="list-style-type: none"> Monthly journal transfers and reconciliation process. A monthly review of general ledger accounts is performed to confirm costs have been allocated in accordance with the CAM <p>Test Performed:</p> <ul style="list-style-type: none"> We have inspected the CAM to confirm that it addresses the allocation of costs between Energex and its affiliated entities. From the population of monthly reconciliation reports, we selected a sample to determine whether transactions were treated in accordance with the CAM 	<p>Compliance with the Cost Allocation Methodology is assessed every regulatory period as part of the AER Regulatory Information Notices (RINs). This was most recently conducted for 1 July 2023 - 30 June 2024 regulatory period with our conclusion submitted to AER in our report dated 31 October 2024. The compliance with the CAM for the remaining period from 1 July 2024 -31 December 2024 will be covered under the RINS for the 1 July 2024 to 30 June 2025 regulatory period. Our procedures on the CAM per the purpose of attesting compliance with the guideline therefore is limited to the period 1 January 2024 - 30 June 2024. This approach is in line with Ring-Fencing guideline 6.2.1 (d) which allows for a difference between the regulatory information notice period and the Ring-Fencing compliance period regarding the information in Section 3.2.2</p>		

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
5	Cost allocation and attribution	3.2.2 (c)	A DNSP must establish, maintain and keep records that demonstrate how it meets the obligations in clauses 3.2.2(a) and 3.2.2(b).	Key Control(s): <ul style="list-style-type: none"> Cost are allocated using the AER approved Energex Cost Allocation Methodology (CAM) Monthly journal transfers and reconciliation process. A monthly review of general ledger accounts is performed to confirm costs have been allocated in accordance with the CAM Test Performed: <ul style="list-style-type: none"> We have inspected the CAM to confirm that it addresses the allocation of costs between Energex and its affiliated entities. From the population of monthly reconciliation reports, we selected a sample to determine whether transactions were treated in accordance with the CAM 	Based on the testing performed we have not identified any matters of exception against the obligation. Consistent with our observation in 3.2.2 (a), (b), our procedures were limited to the regulatory period 1 January 2024 to 30 June 2024.	N/A	No Exception
6	Obligation not to discriminate	4.1(b), (d)	(b) A DNSP must not discriminate (either directly or indirectly) between a related electricity service provider and a competitor (or potential competitor) of a related electricity service provider in connection with the provision of: <ol style="list-style-type: none"> direct control services by the DNSP (whether to itself or to any other legal entity); and / or contestable electricity services by any other legal entity. (d) A DNSP must not discriminate (either directly or indirectly) between any two legal entities, in connection	Key Control(s): <ul style="list-style-type: none"> All tender documents are reviewed and approved and incorporate ring-fencing requirements. Audits of tender documents are performed on an ad hoc basis to ensure compliance of the DNSP tender processes for contestable services consider ring-fencing obligations. Ring-fencing training Test Performed: <ul style="list-style-type: none"> Inquired of management and reviewed procurement policies to gain an understanding of the processes. 	Based on the testing performed we have not identified any matters of exception against the obligation	N/A	No Exception

No.	Category	Ref.	Guideline Obligation	Key Controls and Testing	Results of Testing	Recommendation	Rating
			with the supply of contestable electricity services by those legal entities, on the basis of the use by one or both of those legal entities of assets owned, operated or otherwise controlled (in whole or in part) by the DNSP.	<ul style="list-style-type: none"> Inquired of management whether Yurika tendered to provide services to Energex during the year. Inspected a sample of signed procurement contracts executed during the period to determine whether ring-fencing requirements for service providers have been included; and agreements have been signed and executed. Inspected the online ring-fencing training module for evidence that the obligation not to discriminate is explained in clear terms. 			
7	Offices, staff, branding and promotions	4.2.1(a)	A DNSP must use offices that are separate from any offices from which a related electricity service provider provides contestable electricity services.	<p>Key Control(s):</p> <ul style="list-style-type: none"> Individual office security arrangements are based on type of offices (RESP only, DNSP only, mixed DNSP/RESP, regional) Staff re-located based on roles – DNSP / Corporate / RESP <p>Test Performed:</p> <ul style="list-style-type: none"> Inspected Energex's policies in relation to offices, staff, branding and promotions. For the staff seconded over the period we inspected their physical access records across Energex and the affiliate offices to determine whether they were restricted from entering secure floors or offices across Energex's offices whilst on secondment at the affiliate. 	Based on the testing performed we have not identified any matters of exception against the obligation	N/A	No Exception
8	Staff sharing	4.2.2(a)	A DNSP must ensure that its staff involved in the provision or marketing of direct control services are not also involved in the provision or marketing	<p>Key Control(s):</p> <ul style="list-style-type: none"> EQL employee induction and training material includes ringfencing awareness requirements.
