

Quarterly Report

October - December 2025

From:	Wholesale Energy Market Dispute Resolution Adviser – Resolution Institute WEMDRA
Dates covered:	October – December 2025

SECTION 1: DISPUTES AND SCHEDULING ERRORS

PERIOD	MATTERS NOTIFIED	STAGE 1	STAGE 2: DISPUTES AND DRP
July – September 2025	Nil	Nil	NGR Matter - transitioned from Resolve Advisors and subsequently withdrawn
October – December 2025	Unintended Scheduling Result notified August 2025	Unintended Scheduling Error - October 2025 under Rule 135H of the NGR	Nil

SECTION 2: EXPLANATION OF STAGES AND MATTERS IN PROGRESS

2.1 EXPLANATION OF STAGES

MATTERS NOTIFIED

Details of these matters are Confidential between the WEMDRA and the parties. This can be a matter notified to WEMDRA for compensation, or triage and discussion before initiating another stage. Additionally, it can be a matter discussed for guidance, or exploration about a potential claim. The latter category appears on the list at the discretion of WEMDRA.

STAGE 1

Stage 1 encourages the exploration and joint resolution of the disputes by direct commercial negotiation, or assistance through a facilitated, or non-binding expert process. In Stage 1, a DMS notice has been served by one party to another under Chapter 8 of the National Electricity Rules, or part 15C of the National Gas Rules.

STAGE 2

Stage 2 is geared towards a binding decision by a panel of one or more experts. In Stage 2, a dispute has not been resolved in Stage 1 and is escalated to a dispute panel of between 1-3 people selected by WEMDRA in consultation with the parties or where the rules provide that the matter go directly to a DRP for determination or awarding of compensation. Stage 2 can also be an adviser led process.

2.2 MATTERS IN PROGRESS

- An unintended scheduling result (USR) that occurred on 17th June 2025 (Declared Wholesale Gas Market) has been investigated and a report was published by AEMO in August 2025. The matter was formally submitted to the WEMDRA in October 2025, and a Stage 1 meeting was facilitated by the WEMDRA with AEMO and the parties impacted by the error in November 2025.

SECTION 3: ADMINISTRATION FOR THE QUARTER

COMPLETED:

- **Closure of Compensation Claim (NGR r704(1)(b))** As previously reported, the compensation claim was withdrawn on 11 August 2025. A formal Market Notice was subsequently issued on 16 October 2025 confirming the matter is closed and that no determination was made. In accordance with the NGR, AEMO was responsible for the DRP and WEMDRA costs associated with the claim.

Kind Regards

Amber Williams
