Annual Electricity Transmission Ring-fencing Compliance Report for the 2025 reporting year

Please find attached the ACERERZ Partnership (ACERERZ) Annual Ring-fencing Compliance Report for the period 3 June 2025 to 31 December 2025, submitted in accordance with clause 6.2 of the AER Ring-fencing Guideline - Electricity Transmission (V5).

During the reporting period, ACERERZ continued to implement governance arrangements and controls to support compliance with the Guideline. ACERERZ's activities during this period were limited to the delivery of prescribed transmission services associated with the Central-West Orana Renewable Energy Zone Network Infrastructure Project, and ACERERZ did not undertake contestable electricity services or negotiated transmission services.

ACERERZ has undertaken an internal compliance review and confirmed that appropriate controls and processes are in place to support compliance with the Guideline. No breaches of the Guideline were identified during the reporting period. I attest that the information set out in the report is accurate to the best of my knowledge.

In accordance with the Guideline, ACERERZ engaged an independent qualified authority (Ernst & Young) to undertake an assessment of ACERERZ's compliance with the Guideline. The independent assessment report accompanies this submission.

If you have any questions regarding this submission, please contact Eamonn Corrigan, Regulatory Director, at [REDACTED] or [REDACTED]

Yours sincerely,

[REDACTED]

Steve Masters
Chief Executive Officer
ACERERZ Partnership
