

AusNet Transmission Revenue Reset 2027-32 – Revised Proposal Confidentiality Claims

01 Documents

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
AusNet - Revised Revenue Proposal - 10 Sep 2026 - SOCI ACT PROTECTED Confidential: Section 3.3, p39, 40 Section 3.6, p87 Section 3.7, p94, 97, 98, Section 3.9, p107, 108, 109, 110, 111 Section 3.10, p113 Section 4.7, p144 Section 6.3, p168, 169, 170 Section 7.3, p174 Section 9.5, p187 <u>SOCI Act Protected:</u> Section 0.3, p13 Section 3.8, p104, 105 Section 4.7, p147, 148 (23 out of 202 pages)	SOCI Act Protected information Cost and supplier information	Capex Opex	SOCI Act Protected information Market sensitive cost inputs Other	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations.	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
AusNet - Certification of the Reasonableness of Key Assumptions - 1 Sep 2026 – CONF Names and signatures on p1 (1 out of 1 page)	Names and signatures	Compliance	Personal information	Names and signatures are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth).	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual.	There is no public benefit to disclosing the personal information under the circumstances.

02 Appendices

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
AusNet - Appendix 3A Revised Unit Rates - 7 Sep 2026 - CONF Issue/amendment status p2 Section 2.1 p4, 5 Section 3.2 p8, 9, 10, 11 Section 3.3 p13 Section 3.4 p15, 16 Section 3.5 p18 Section 3.6 p20, 21, 22, 23, 24, 25 (17 out of 26 pages)	Employee names Unit rates Supplier information	Capex	Personal information Market sensitive cost inputs	Names are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth). Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general..	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit to disclosing the personal information under the circumstances. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
AusNet – Appendix 3B Revised Unit Rate Buildups – 1 Sep 2026 – CONF Entire workbook (29 out of 29 sheets)	Unit rates Supplier information	Capex	Market sensitive cost inputs	Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general..	Provision of this information is likely to compromise future competitive tender processes.	Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
AusNet – Appendix 3E Asset Replacement and Compliance Update – 1 Sep 2026 – CONF Name p2 Section 5.2 p10, 11 Section 9.2, p21 Section 12, p31 (5 out of 37 pages)	Employee names Unit rates Supplier information	Capex	Personal information Market sensitive cost inputs	Names are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth). Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general..	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit to disclosing the personal information under the circumstances. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
AusNet – Appendix 3F Resilience Update – 1 Sep 2026 – CONF Name, document control page Section 1, p1 Section 4.2, p8 Section 6, p11	Employee names Supplier information Confidential regulator interactions	Capex	Personal information Market sensitive cost inputs Other	Names are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth). Publication of supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general.	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual.	There is no public benefit to disclosing the personal information under the circumstances. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
(4 out of 16 pages)				Certain interactions with regulators are confidential in nature	Provision of this information is likely to compromise future competitive tender processes. AusNet is required to maintain the confidentiality of certain interactions with regulators. Disclosing this information would be detrimental to stakeholder relations	There is no public benefit from damaging stakeholder relations
AusNet – Appendix 3H CIRMP Amendment Rules Non-Digital – 1 Sep 2026 – SOCI ACT PROTECTED Summary, p2 Section 6A, p4 Section 9A, p5, 6 Section 10A, p7 Section 11A, p8, 9 (7 out of 10 pages)	SOCI Act Protected information	Capex, opex	SOCI Act Protected information	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act.	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure.
AusNet – Appendix 4C Step Change Cost Buildup - 9 Sep 2026 - SOCI ACT PROTECTED <u>SOCI Act Protected</u> Entire SOCI-related sheets <u>Confidential</u> Cost information on Delegated Network Operations sheet Entire Support sheet for Delegated Network Operations (8 out of 16 sheets)	SOCI Act Protected information Cost and supplier information	Opex	SOCI Act Protected information Market sensitive cost inputs	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations.	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
AusNet – VicGov – Appendix 4D Minister Appointment VIC Responsible Officer – 1 Sep 2026 – CONF Entire letter (1 out of 1 page)	Entire letter	Opex	Personal information Other	Names and signatures are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth). Letter is private to the Victorian Government, which is not appropriate for AusNet to publicise	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual.	There is no public benefit to disclosing the personal information under the circumstances. No public benefit from disclosing contractual information as the substance of the agreement with the Victorian Government has been explained in the Revised Proposal

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
					Disclosing information private to the Victorian Government would be detrimental to stakeholder relations	
AusNet – Appendix 4E Instrument of Delegation – 9 Sep 2026 – CONF p1 to 4 (4 out of 7 pages)	Names and signatures Contractual information	Opex	Personal information Other	Names and signatures are captured under the definition of "personal information" under the <i>Privacy Act 1980</i> (Cth). Contractual information is private to AusNet and AEMO, which is not appropriate for AusNet to publicise	Personal information (as defined under the Privacy Act) should not be disclosed where there is no permission or legal requirement to disclose, and where inclusion of the information in a document for publication is not relevant to the content of the document. Doing so could be a breach of the Privacy Act leading to harm affecting the relevant individual. Disclosing information private to AEMO would be detrimental to stakeholder relations	There is no public benefit to disclosing the personal information under the circumstances. No public benefit from disclosing contractual information as the substance of the agreement with AEMO has been explained in the Revised Proposal, and Schedule 1 is publicly available
AusNet – AEMO – Appendix 4F Contingency Plans Letter – 1 Sep 2026 – CONF Entire letter (2 out of 2 pages)	Entire letter	Opex	Other	Letter is private to AEMO, which is not appropriate for AusNet to publicise	Disclosing information private to AEMO would be detrimental to stakeholder relations	No public benefit from disclosing letter contents as the substance of the agreement with AEMO/VicGrid has been explained in the Revised Proposal

03 Models

There are no confidentiality claims relating to the main regulatory models.

04 Supporting Documents

4.1 Model Documents

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
AusNet - Growth Assets Calculation - 1 Sep 2026 – CONF Entire model (4 out of 4 sheets)	Commercial in confidence contract information	Opex, opening RAB	Market sensitive cost inputs	Information contains sensitive details on customer contractual arrangements	Disclosure will affect both customer's market position and AusNet's ability to negotiate efficient contractual arrangements with future customers	Little public benefit or consumer interest in customer contracts details. We note that Appendix 4A Growth Assets provides a public summary of the growth asset roll-in, and that the operating expenditure impacts of growth assets are available in the public opex model
AusNet - Lease Offsetting Adjustments - 1 Sep 2026 – CONF Entire model (3 out of 3 sheets)	Lease information	Capex	Market sensitive cost inputs	The cost information by location may affect AusNet's ability to obtain a competitive price in future negotiations for property leases	Provision of this information will compromise competitive tender processes	It is in consumers' interest for AusNet to minimise costs. Provision of cost information compromises AusNet's ability to source these services competitively
AusNet - Remaining Lives for Short Life Leases - 1 Sep 2026 – CONF Entire model (3 out of 3 sheets)	Cost related information	Capex	Market sensitive cost inputs	Information on the terms of AusNet's leases may affect future negotiations for leases	Provision of this information will compromise competitive tender processes	It is in consumers' interest for AusNet to minimise costs. Provision of lease information compromises AusNet's ability to source these services competitively
AusNet - Transmission Leases greater than 20 years - Remaining life adjustment RY27 - 1 Sep 2026 – CONF Entire model (7 out of 7 sheets)	Lease information	Capex	Market sensitive cost inputs	The cost information may affect AusNet's ability to obtain a competitive price in future negotiations for property leases	Provision of this information will compromise competitive tender processes	It is in consumers' interest for AusNet to minimise costs. Provision of cost information compromises AusNet's ability to source these services competitively

4.2 Technology Documents

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
4.2.01 AusNet - AEMS Addendum - 1 Sep 2026 - SOCI ACT PROTECTED <u>Confidential:</u> Section 1.2, p7 Section 2.2, p9, 12, 13, 14 <u>SOCI Act Protected:</u> Section 2.2, p13, 14 (5 out of 20 pages)	SOCI Act Protected information Cost and supplier information Benefit valuation	Capex, opex	SOCI Act Protected information Market sensitive cost inputs Information affective the security of the network	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations. Disclosing detailed information on network operations could increase vulnerability of the network and increase the risks of cyber attacks	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes. Disclosure could increase vulnerability of the network and increase the risks of cyber-attacks.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices. It is in the best interests of consumers for the network to remain secure.
4.2.02 AusNet - Cybersecurity Addendum - 1 Sep 2026 - CONF Section 1.1, p6 Section 2.1, p11 Section 2.2, p12, 13, 14 Section 2.3, p16, 17, 18 Section 2.4, p19, 20 Section 2.5, p20, 21, 22 Section 3, p23 (13 out of 24 pages)	Cost and supplier information Benefit valuation	Capex, opex	Market sensitive cost inputs Information affective the security of the network	Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations. Cybersecurity strategy information not to be disclosed as it relates to security of the network	Provision of this information is likely to compromise future competitive tender processes. Disclosure could increase vulnerability of the network and increase the risks of cyber-attacks.	Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices. It is in the best interests of consumers for the network to remain secure.
4.2.03 AusNet - DR Infrastructure Addendum - 1 Sep 2026 - CONF Section 2.1, p7, 8 Section 2.2, p8, 9 (3 out of 10 pages)	Cost and supplier information Benefit valuation	Capex, opex	Market sensitive cost inputs Information affective the security of the network	Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations. Disclosing detailed information on infrastructure could increase vulnerability	Provision of this information is likely to compromise future competitive tender processes. Disclosure could increase vulnerability of the network and increase the risks of cyber-attacks.	Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices. It is in the best interests of consumers for the network to remain secure.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
				of the network and increase the risks of cyber attacks		
4.2.04 AusNet - Metering Systems Addendum - 1 Sep 2026 – CONF Section 2.1, p7 Section 2.2, p8 Section 2.3, p8 Section 2.4, p9 Appendix 1, p11 (4 out of 12 pages)	Cost and supplier information Benefit valuation	Capex, opex	Market sensitive cost inputs Information affecting the security of the network	Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations. Disclosing detailed information on metering systems could increase vulnerability of the network and increase the risks of cyber attacks	Provision of this information is likely to compromise future competitive tender processes. Disclosure could increase vulnerability of the network and increase the risks of cyber-attacks.	Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices. It is in the best interests of consumers for the network to remain secure.
4.2.05 AusNet - CI Fortify Business Case - 7 Sep 2026 - SOCI ACT PROTECTED Table of contents, p2 Executive summary, p4, 5 Section 1.3, p8, 9, 10 Section 1.4, p10, 11, 12, 13 Section 2, p14 Section 2.2, p15 Section 2.3, p16, 17 Section 2.4, p17, 18, 19 Section 3.1, p20, 21 Section 3.2, p22, 23, 24, 25, 26, 27, 28, 29, 30, 31 Section 3.3, p31, 32 Appendix A, p33 Appendix B, p34 (30 out of 35 pages)	SOCI Act Protected information Cost and supplier information	Capex, opex	SOCI Act Protected information Market sensitive cost inputs	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations.	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
4.2.06 AusNet - FOCI Supply Chain Business Case - 7 Sep 2026 - SOCI ACT PROTECTED	SOCI Act Protected information Cost and supplier information	Capex, opex	SOCI Act Protected information Market sensitive cost inputs	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program)	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Executive Summary, p4, 5 Section 1.2, p7 Section 2.1, p9, 10 Section 2.2, p11, 12, 13, 14 Section 2.3, p14, 15 Section 3.1, p16 Section 3.2, p16, 17, 18, 19, 20 Section 3.3, p21 Appendix A, p22 Appendix B, p23 (18 out of 24 pages)				Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations.	of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes.	Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
4.2.07 AusNet - AI for Cyber Defence Business Case - 7 Sep 2026 - SOCI ACT PROTECTED Executive Summary, p4, 5 Section 1, p9, 10 Section 2.1, p12 Section 2.2, p12, 13 Section 2.3, p14, 15, 16, 17 Section 3.2, p19, 20, 21, 22, 23, 24, 25 Section 4, p26, 27 Appendix A, p28, 29, 30, 31, 32 (24 out of 33 pages)	SOCI Act Protected information Cost and supplier information	Capex, opex	SOCI Act Protected information Market sensitive cost inputs	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act. Publication of cost and supplier information is likely to compromise AusNet's ability to obtain a competitive price in future in tenders and other processes for seeking supplies for projects and in general. It may also breach contractual confidentiality obligations.	AusNet is obligated to only disclose SOCI Act Protected Information in accordance with the SOCI Act. The recipient is then also subject to regulatory requirements only allowing for disclosure in very limited circumstances. Publication on the internet of SOCI Protected Information would compromise the purpose of the SOCI Act, that is, to ensure the security of Australian critical infrastructure. Provision of this information is likely to compromise future competitive tender processes.	There is no public benefit from disclosing Protected Information through publication on the internet, potentially compromising the security of critical infrastructure. Disclosure would be a direct detriment to consumers with no corresponding benefit. It is in the best interests of the consumer to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source services at competitive prices.
4.2.08 AusNet - Patching Business Case - 1 Sep 2026 - SOCI ACT PROTECTED Executive Summary, p4, 5 Section 1, p9, 10 Section 2.2, p12, 13, 14	SOCI Act Protected information Cost and supplier information	Capex, opex	SOCI Act Protected information Market sensitive cost inputs	These details of AusNet's programs to address security obligations under the SOCI Act, including under the Security of Critical Infrastructure Legislation Amendment (Enhanced Critical Infrastructure Risk Management Program) Rules 2026, are relevantly Protected Information under the SOCI Act.
