

Part 5

Financial statements

INDEPENDENT AUDITOR'S REPORT

To the Treasurer

I have audited the accompanying financial statements of the Australian Competition and Consumer Commission for the year ended 30 June 2013, which comprise: a Statement by the Chairman, Chief Executive and Chief Financial Officer; Statement of Comprehensive Income; Balance Sheet; Statement of Changes in Equity; Cash Flow Statement; Schedule of Commitments; Schedule of Contingencies; Administered Schedule of Comprehensive Income; Administered Schedule of Assets and Liabilities; Administered Reconciliation Schedule; Administered Cash Flow Statement; Schedule of Administered Commitments; Schedule of Administered Contingencies; and Notes comprising a Summary of Significant Accounting Policies and other explanatory information.

Chief Executive's Responsibility for the Financial Statements

The Chief Executive of the Australian Competition and Consumer Commission is responsible for the preparation of financial statements that give a true and fair view in accordance with the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, including the Australian Accounting Standards, and for such internal control as is necessary to enable the preparation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on my audit. I have conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. These auditing standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Australian Competition and Consumer Commission's preparation of the financial statements that give a true and fair view in order to

GPO Box 707 CANBERRA ACT 2601
19 National Circuit BARTON ACT 2600
Phone (02) 6203 7300 Fax (02) 6203 7777

design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Australian Competition and Consumer Commission's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the Chief Executive of the Australian Competition and Consumer Commission as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

In conducting my audit, I have followed the independence requirements of the Australian National Audit Office, which incorporate the requirements of the Australian accounting profession.

Opinion

In my opinion, the financial statements of the Australian Competition and Consumer Commission:

- (a) have been prepared in accordance with the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, including the Australian Accounting Standards; and
- (b) give a true and fair view of the matters required by the Finance Minister's Orders including the Australian Competition and Consumer Commission's financial position as at 30 June 2013 and of its financial performance and cash flows for the year then ended.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION

STATEMENT BY THE CHAIRMAN, CHIEF EXECUTIVE OFFICER AND CHIEF FINANCE OFFICER

In our opinion, the attached Financial Statements for the year ended 30 June 2013 are based on properly maintained financial records and give a true and fair view of the matters required by the Finance Minister's Orders made under the *Financial Management and Accountability Act 1997*, as amended.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Note 1: Summary of Significant Accounting Policies

1.1 Objectives of the Australian Competition and Consumer Commission (the Commission)

The Commission is an Australian Government controlled entity. It is a not-for-profit entity. The objectives of the Commission are to:

- promote vigorous, lawful competition and informed markets;
- encourage fair trading, protection of consumers and product safety; and
- regulate national infrastructure services (such as communications, bulk water, energy, rail, airports, post and wheat exports) and other markets where there is limited competition.

The Commission's outcome is lawful competition, consumer protection, and regulated national infrastructure markets and services through regulation, including enforcement, education, price monitoring and determining the terms of access to infrastructure services.

The continued existence of the Commission in its present form and with its present programs is dependent on Government Policy and on continuing funding by Parliament for the Commission's administration and programs.

The Commission's activities contributing toward these outcomes are classified as either departmental or administered. Departmental activities involve the use of assets, liabilities, income and expenses controlled or incurred by the Commission in its own right. Administered activities involve the management or oversight by the Commission, on behalf of the Government, of items controlled or incurred by the Government.

The Commission does not conduct administered activities, however, fines and penalties collected are returned to the Commonwealth as administered items. Contingent gains are recognised as administered items, and contingent losses are recognised as departmental items.

1.2 Basis of Preparation of the Financial Statements

The financial statements are general purpose financial statements and are required by section 49 of the *Financial Management and Accountability Act 1997*.

The financial statements and notes have been prepared in accordance with:

- Finance Minister's Orders (or FMOs) for reporting periods ending on or after 1 July 2011; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

Unless an alternative treatment is specifically required by an accounting standard or the FMOs, assets and liabilities are recognised in the balance sheet when and only when it is probable that future economic benefits will flow to the Commission or a future sacrifice of economic benefits will be required and the amounts of the assets or liabilities can be reliably measured. However, assets and liabilities arising under executory contracts are not recognised unless required by an accounting standard. Liabilities and assets that are unrecognised are reported in the schedule of commitments or the schedule of contingencies.

Unless an alternative treatment is specifically required by an accounting standard, income and expenses are recognised in the Statement of Comprehensive Income when and only when the flow, consumption or loss of economic benefits has occurred and can be reliably measured.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

1.3 Significant Accounting Judgements and Estimates

In the process of applying the accounting policies listed in this note, the Commission has made the following judgements that have the most significant impact on the amounts recorded in the financial statements:

- The fair value of leasehold improvements has been taken to be the market value of similar properties as determined by an independent valuer.
- The Australian Government shorthand method has been used to estimate the present value of long service leave liabilities.

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to carrying amounts of assets and liabilities within the next reporting period.

1.4 Changes in Australian Accounting Standards

Adoption of New Australian Accounting Standard Requirements

No accounting standard has been adopted earlier than the application date as stated in the standard.

There have been no new standards, amended standards or interpretations that were issued by the Australian Accounting Standards Board prior to the sign off date that are applicable to the current reporting period and have a material impact on the ACCC.

Future Australian Accounting Standard Requirements

The following new standards, revised standards, interpretations and amending standards were issued by the Australian Accounting Standards Board prior to the sign-off date and apply to the future reporting period, they are expected to have a financial impact on the agency for future reporting periods:

AASB 13	Fair Value Measurement – December 2012 (Principal) – this will result in an increase level of disclosure for items carried at fair value.
AASB 119	Employee Benefits - September 2011 (Principal) – this will result in an increased level of disclosure.
AASB 2011-8	Amendments to Australian Accounting Standards arising from AASB 13
AASB 2011-10	Amendments to Australian Accounting Standards arising from AASB 119

The following new standards, revised standards, interpretations and amending standards were issued by the Australian Accounting Standards Board prior to the sign-off date and apply to the future reporting period, they are not expected to have a financial impact on the ACCC:

AASB 1055	Budgetary Reporting - March 2013 (Principal) – this new requirement will require the ACCC to explain significant variances between budget and actual expenditure
AASB 9	Financial Instruments – may impact on recognition and measurement of financial instruments
AASB 2012-3	Amendments to Australian Accounting Standards – Offsetting Financial Assets and Liabilities (AASB 132) – this is expected to have a minimal impact on the ACCC's financial statements.
AASB 2010-7	Amendments to Australian Accounting Standards arising from AASB 9
AASB 2012-2	Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities (AASB7 & AASB 132) – this is not expected to have an impact on the ACCC's financial statements.
AASB 2012-3	Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities (AASB 132) – this is not expected to have an impact on the ACCC's financial statements.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

1.5 Revenue

Revenue from the sale of goods is recognised when:

- The risks and rewards of ownership have been transferred to the buyer;
- The entity retains no managerial involvement or effective control over the goods;
- The revenue and transaction costs incurred can be reliably measured; and
- It is probable that the economic benefits associated with the transaction will flow to the Commission.

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- The amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- The probable economic benefits associated with the transaction will flow to the Commission.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Revenue from Government

Amounts appropriated for departmental appropriations for the year (adjusted for any formal additions and reductions) are recognised as Revenue from Government when the Commission gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned. Appropriations receivable are recognised at their nominal amounts.

Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government agency or authority as a consequence of a restructuring of administrative arrangements (refer to Note 1.7).

Parental Leave Payments Scheme

Amount received under the Parental Leave Payments Scheme by the Commission not yet paid to employees were presented gross as cash and a liability (payable). The total amount received under this scheme is disclosed as a footnote to the Note 4E: Revenue from Government.

1.6 Gains

Resources Received Free of Charge

Resources received free of charge are recognised as gains when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense.

Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another government agency or authority as a consequence of a restructuring of administrative arrangements. (Refer to Note 1.7).

Sale of Assets

Gains from disposal of non-current assets are recognised when control of the asset has passed to the buyer.

1.7 Transactions with the Government as Owner

Equity Injections

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) and Departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

Restructuring of Administrative Arrangements

Net assets received from or relinquished to another Government entity under a restructuring of administrative arrangements are adjusted at their book value directly against contributed equity.

Other Distributions to Owners

The FMOs require that distributions to owners be debited to contributed equity unless it is in the nature of a dividend. In 2012-13, the Commission made no such distributions.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

1.8 Employee Benefits

Liabilities for 'short-term employee benefits' (as defined in AASB 119 *Employee Benefits*) and termination benefits due within twelve months of the end of the reporting period are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of the Commission is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is likely to be taken, including the Commission's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been calculated using the Australian Government short hand method. The estimate of present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

Separation and Redundancy

Provision is made for separation and redundancy benefit payments. The Commission recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

Superannuation

The Commission's staff are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS) or the PSS accumulation plan (PSSap) and other superannuation plans.

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap and the other superannuation plans are defined contribution schemes.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance and Deregulation's administered schedules and notes.

The Commission makes employer contributions to the employees' superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The Commission accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions for the final fortnight of the year.

1.9 Leases

A distinction is made between finance leases and operating leases. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and rewards incidental to ownership of leased assets. An operating lease is a lease that is not a finance lease. In operating leases, the lessor effectively retains substantially all such risks and rewards.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the lease property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight line basis which is representative of the pattern of benefits derived from the leased assets.

There are currently no finance leases within the Commission.

1.10 Borrowing Costs

All borrowing costs are expensed as incurred.

1.11 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents includes:

- a) cash on hand;
- b) demand deposits in bank accounts with an original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value;
- c) cash held with outsiders; and
- d) cash in special accounts.

1.12 Financial Assets

The Commission classifies its financial assets as loans and receivables.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets are recognised and derecognised upon trade date.

Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis except for financial assets that are recognised at fair value through profit or loss.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Financial Assets at Fair Value Through Profit or Loss

Financial assets are classified as financial assets at fair value through profit or loss where the financial assets:

- a) have been acquired principally for the purpose of selling in the near future;
- b) are derivatives that are not designated and effective as a hedging instrument; or
- c) are parts of an identified portfolio of financial instruments that the entity manages together and has a recent actual pattern of short-term profit-taking.

Assets in this category are classified as current assets.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest earned on the financial asset.

Loans and Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period.

· *Financial assets carried at amortised cost* - if there is objective evidence that an impairment loss has been incurred for loans and receivables or held to maturity investments held at amortised cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income.

· *Financial assets carried at cost* - If there is objective evidence that an impairment loss has been incurred, the amount of the impairment loss is the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate for similar assets.

1.13 Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

Financial Liabilities at Fair Value Through Profit or Loss

Financial liabilities at fair value through profit or loss are initially measured at fair value. Subsequent fair value adjustments are recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

Other Financial Liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

1.14 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the balance sheet but are reported in the relevant schedules and notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

1.15 Acquisition of Assets

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

1.16 Property, Plant and Equipment

Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$2,000, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'make good' provisions in property leases taken up by the Commission where there exists an obligation to restore the property to its original condition. These costs are included in the value of the Commission's leasehold improvements with a corresponding provision for the 'make good' recognised.

Revaluations

Fair value of each class of asset are determined as shown below:

<i>Asset Class</i>	<i>Fair value measured at</i>
Leasehold improvements	Depreciated replacement cost
Property, plant and equipment	Market selling price

Following initial recognition at cost, property, plant and equipment is carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depended upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments were made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets were recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the Commission using, in all cases, the straight line method of depreciation. Leasehold improvements are depreciated on a straight-line basis over the lesser of the estimated useful life of the improvements or the unexpired period of the lease.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the useful lives in the table below.

Asset Class	2013	2012
Leasehold improvements	Lesser of the term of the lease or 15 years	Lesser of the term of the lease or 15 years
Furniture and fittings	10 years	10 years
Office equipment	5 years	5 years
Computer hardware	3 to 5 years	3 to 5 years
Computer software	3 to 7 years	3 to 7 years

Impairment

All assets were assessed for impairment at 30 June 2013. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the Commission was deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

1.17 Intangibles

The Commission's intangibles comprise purchased and internally developed software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses. These assets are carried at cost above the capitalisation threshold of \$10,000, below this amount they are expensed in the year of purchase.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the Commission's software are 3 years to 7 years. (2011-12: 3 to 7 years).

All software assets were assessed for impairment as at 30 June 2013. There were no indicators of impairment.

1.18 Inventories

Inventories (publications) held for sale are valued at the lower of cost or net realisable value.

Inventories held for distribution are valued at cost, adjusted for any loss of service potential.

Costs incurred in bringing each item of inventory to its present location and condition relate solely to printing and delivery. These costs are assigned to inventory at purchase cost and recognised on a first-in-first-out basis.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

1.19 Taxation/ Competitive Neutrality

The Commission is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

Competitive Neutrality

The Commission provides services on a not-for-profit basis which are not subject to Competitive Neutrality arrangements.

1.20 Williams Case

The Australian Government continues to have regard to developments in case law, including the High Court's most recent decision on Commonwealth expenditure in *Williams v Commonwealth* (2012) 288 ALR 410, as they contribute to the larger body of law relevant to the development of Commonwealth programs. In accordance with its general practice, the Government will continue to monitor and assess risk and decide on any appropriate actions to respond to risks of expenditure not being consistent with constitutional or other legal requirements.

1.21 Reporting of Administered Activities

Administered revenues, expenses, assets, liabilities and cash flows are disclosed in the administered schedules and related notes.

Except where otherwise stated below, administered items are accounted for on the same basis and using the same policies as for departmental items, including the application of Australian Accounting Standards.

Administered Cash Transfers to and from Official Public Account

Revenue collected by the Commission for use by the Government rather than the Commission is administered revenue. Collections are transferred to the Official Public Account (OPA) maintained by the Department of Finance and Deregulation. Conversely, cash is drawn from the OPA to make payments under Parliamentary appropriation on behalf of Government. These transfers to and from the OPA are adjustments to the administered cash held by the Commission on behalf of the Government and reported as such in the schedule of administered cash flows in the administered reconciliation schedule.

Revenue

All administered revenues are revenues relating to ordinary activities performed by the Commission on behalf of the Australian Government. As such, administered appropriations are not revenues of the individual entity that oversees distribution or expenditure of the funds as directed.

Revenue is generated from fines and costs applied by the courts, or by agreement between the Commission and the defendant. It is recognised when awarded by the courts, or when agreement has been executed.

The court costs awarded against the Commission are recorded as a departmental expense.

Authorisation and notification fees and other revenue are applied when required under the relevant legislation, and are recognised upon payment.

Administered fee revenue is recognised at its nominal amount due less any allowance for bad or doubtful debts. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collection of the debt is judged to be less rather than more likely.

for the year ended 30 June 2013

Note 2: Events After the Reporting Period

Departmental

The Statute Stocktake (Appropriations) Bill 2013 seeks to repeal all old annual Appropriation Acts from 1 July 1999 to 30 June 2010. This Bill received Royal Assent post 30 June 2013. At the end of the financial year, there were no amounts receivable by the commission from the above appropriation sources.

Administered

There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activities of the Commission.

Note 3: Expenses

Less: Accumulated impairment losses	-	-
<i>Total leasehold improvements</i>	<u>14,107</u>	<u>14,296</u>

No indicators of impairment were found for leasehold improvements.

Note 6B: Property, Plant and Equipment

<i>Property, plant and equipment</i>		
Fair Value	8,705	6,689
Less: Accumulated depreciation	(1,622)	(68)
Less: Accumulated impairment losses	-	-
<i>Total property, plant and equipment</i>	<u>7,083</u>	<u>6,621</u>

No indicators of impairment were found for property, plant and equipment. No property, plant and equipment is expected to be sold or disposed within the next 12 months.

Revaluations of non-financial assets

All revaluations were conducted in accordance with the revaluation policy stated at Note 1. On 30 June 2012 a full revaluation of property plant and equipment was carried out by the Australian Valuation Office.

A revaluation increment of \$0 for leasehold improvements (2012: \$1,371,409) was credited to the asset revaluation surplus by asset class and included in the equity section of the balance sheet. A revaluation decrement of \$0 for plant and equipment (2012: \$1,229,706) was debited to the asset revaluation surplus by asset class and included in the equity section of the balance sheet. Decrements of \$0 were also expensed (2012: \$178,438 expensed).

Notes:

- This table reports on substantive senior executives who received remuneration during the reporting period. Each row is an averaged figure based on headcount for the individuals in the band.
- Reportable salary includes the following:
 - gross payments (less any bonuses paid, which are separated out and disclosed in the 'bonus paid' column);
 - reportable fringe benefits (at the net amount prior to 'grossing up' to account for tax purposes);
 - exempt foreign employment income; and
 - salary sacrificed benefits.
- The 'contributed superannuation' amount is the average cost to the Commission for the provision of superannuation benefits to substantive senior executives in that reportable remuneration band during the reporting period.
- 'Reportable allowances' are the average actual allowances paid as per the 'total allowances' line on individuals' payment summaries.
- 'Bonus paid' represents average actual bonuses paid during the reporting period in that reportable remuneration band. The 'bonus paid' within a particular band may vary between financial years due to various factors such as individuals commencing with or leaving the Commission during the financial year.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Note 13D: Credit Risk

The Commission is exposed to minimal credit risk as loans and receivables are cash and trade receivables. The maximum exposure to credit risk is the risk that arises from potential default of a debtor. This amount is equal to the total amount of trade receivables (2013: 245,000 and 2012: 689,000). The Commission has assessed the risk of the default on payment and has allocated \$Nil in 2013 (2012: \$Nil) to an impairment allowance account.

The Commission manages its credit risk by undertaking background and credit checks prior to allowing a debtor relationship. In addition, the Commission has policies and procedures that guided employees debt recovery techniques that are to be applied.

The Commission holds no collateral to mitigate against credit risk.

Credit quality of financial instruments not past due or individually determined as impaired

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Note 13E: Liquidity Risk

The Commission's financial liabilities are supplier and other payables. The exposure to liquidity risk is based on the notion that the Commission will encounter difficulty in meeting its obligations associated with financial liabilities. This is highly unlikely due to appropriation funding and mechanisms available to the Commission (e.g. Advance to the Finance Minister) and internal policies and procedures put in place to ensure there are appropriate resources to meet its financial obligations.

The Commission is appropriated funding from the Australian Government. The Commission manages its budgeted funds to ensure it has adequate funds to meet payments as they fall due. In addition, the Commission has policies in place to ensure timely payments are made when due and has no past experience of default. All of the Commission's financial liabilities are due within one year.

Note 13F: Market Risk

The Commission holds basic financial instruments that do not expose the Commission to certain market risks. The Commission is not exposed to currency risk, interest rate risk or other price risk.

Net contingent assets (liabilities)	2,110	1,067	2,110	1,067

Quantifiable Administered Contingencies

The Schedule of Contingencies reports contingent assets in respect of claims for damages/costs of \$2,110,000 (2012: \$1,067,000). The Commission is expecting to succeed in 10 alleged breaches (2012: 4 alleged breaches) of the Competition and Consumer Act, although the cases are continuing. The estimate is based on legal advice and the precedents in such cases.

Unquantifiable Administered Contingencies

As at 30 June 2013, the Commission has 16 matters (2012: 31 matters) considered unquantifiable. In the event of favourable judgment by the court, the Commission stands to gain by way of penalties or costs awarded. It is not possible to determine the amounts in relation to these matters. These were not included in the schedule of contingencies.

Remote Administered Contingencies

As at 30 June 2013 the Commission has no remote Administered Contingencies.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 30 June 2013

Note 20D: Credit Risk

The Commission is exposed to minimal credit risk as loans and receivables are cash and receivables. The maximum exposure to credit risk is the risk that arises from potential default of a debtor. This amount is equal to the total amount of receivables (2013: \$19,187,000 and 2012: \$10,927,000). The Commission has assessed the risk of the default on payment and has allocated \$6,610,000 in 2013 (2012: \$2,148,000) to an allowance for doubtful debts account.

The Commission holds no collateral to mitigate against credit risk.

Credit quality of financial instruments not past due or individually determined as impaired

	Not Past Due Nor Impaired 2013 \$'000	Not Past Due Nor Impaired 2012 \$'000	Past due or impaired 2013 \$'000	Past due or impaired 2012 \$'000

Fines and costs receivable	3	200	20	2,115	2,338
Total	3	200	20	2,115	2,338

Note 20E: Liquidity Risk

The Commission has no administered financial liabilities that are payables. Accordingly the Commission is not exposed to significant liquidity risk.

The Commission's administered activities relate to fines and costs awarded by courts or through agreements. The Commission manages its budgeted funds to ensure it has adequate funds to meet payments as they fall due. In addition, the Commission has policies in place to ensure timely payments are made when due and has no past experience of default.

Note 20F: Market Risk

The Commission holds basic financial instruments that do not expose the Commission to certain market risks. The Commission is not exposed to currency risk, interest rate risk or other price risk.

Total departmental	153,009	-	-	-	3,448	156,457	(29,339)	

Notes:

(a) Appropriations reduced under Appropriation Acts (No. 1,3 & 5) 2012-13; sections 10, 11, and 12 and under Appropriation Acts (No. 2,4,6) 2012-13; sections 12,13, and 14. Departmental appropriations do not lapse at financial year-end. However, the responsible Minister may decide that part or all of a departmental appropriation is not required and request the Finance Minister to reduce that appropriation. The reduction in the appropriation is effected by the Finance Minister's determination and is disallowable by Parliament. In the 2012/13 financial year, the Government imposed both a targeted savings measure and a fire services levy onto the commission totalling \$703,000. The determination was issued on 5 August 2013 by the Finance Minister to reduce Appropriation Act 1 by \$703,000.

(b) Advance to the Finance Minister (AFM) - Appropriation Acts (No. 1,3,5) 2012-13; section 13 and Appropriation Acts (No. 2,4,6) 2012-13; section 15.

(c) The variance between total annual appropriation available and total appropriation applied in 2013 relates to payments funded from unspent prior year appropriation items.

Total departmental	153,838	-	-	-	6,618	-	160,456	175,108	(14,652)

Notes:

- (a) Appropriations reduced under Appropriation Acts (No. 1,3,5) 2011-12: sections 10, 11, 12 and 15 and under Appropriation Acts (No. 2,4,6) 2011-12: sections 12,13, 14 and 17. Departmental appropriations do not lapse at financial year-end. However, the responsible Minister may decide that part or all of a departmental appropriation is not required and request the Finance Minister to reduce that appropriation. The reduction in the appropriation is effected by the Finance Minister's determination and is disallowable by Parliament. In 2012, there was no reduction in departmental and non-operating departmental appropriations.
- (b) Advance to the Finance Minister (AFM) - Appropriation Acts (Nos. 1&3) 2011-12: section 13 and Appropriation Acts (No. 2 & 4) 2011-12: section 15.
- (c) In 2011-12, there were no adjustments that met the recognition criteria of a formal addition or reduction in revenue (in accordance with FMO Div 101) but at law the appropriations had not been amended before the end of the reporting period.
- (d) The variance between total annual appropriation available and total appropriation applied in 2012 relates to payments funded from unspent prior year appropriation items.

AUSTRALIAN COMPETITION & CONSUMER COMMISSION
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2013

Note 22: Compliance with Statutory Conditions for Payments from the Consolidated Revenue Fund

During 2012-13 additional legal advice was received that indicated there could be breaches of Section 83 under certain circumstances with payments for Long Service Leave, Goods and Services Tax and payments under determinations of the Remuneration Tribunal.

The commission has reviewed its processes and payment controls for these items to minimise the possibility for future breaches as a result of these payments. The commission has determined that there is a low risk of the circumstances mentioned in the legal advice applying to the commission. The commission is not aware of any specific breaches of Section 83 in respect of these items.

Note 25: Reporting of Outcomes

The Commission attributes its outcome between its two output groups on the basis of identifiable actual costs. Shared costs incurred with respect to these output groups are apportioned according to these resulting actual costs. This basis of attribution is consistent with that used for the 2012-13 budget.

Note 25A: Net Cost of Outcome Delivery

	Outcome 1		Total	
	2013 \$'000	2012 \$'000	2013 \$'000	2012 \$'000

Note 26: Net Cash Appropriation Arrangements

	2013 \$'000	2012 \$'000
Total comprehensive loss less depreciation/amortisation expenses previously funded through revenue appropriations ¹	(20,910)	(21,433)
Plus: depreciation/amortisation expenses previously funded through revenue appropriation		
	<u>5,074</u>	<u>4,664</u>
Total comprehensive loss as per the Statement of Comprehensive Income	<u>(25,984)</u>	<u>(26,097)</u>

¹ From 2010-11, the Government introduced net cash appropriation arrangements, where revenue appropriations for depreciation/amortisation expenses ceased. Entities now receive a separate capital budget provided through equity appropriations. Capital budgets are to be appropriated in the period when cash payment for capital expenditure is required.
