7. Questions from stakeholders – (25 mins)
8. Closing presentation and next steps – Eric Groom (5 min)

# AER opening presentation

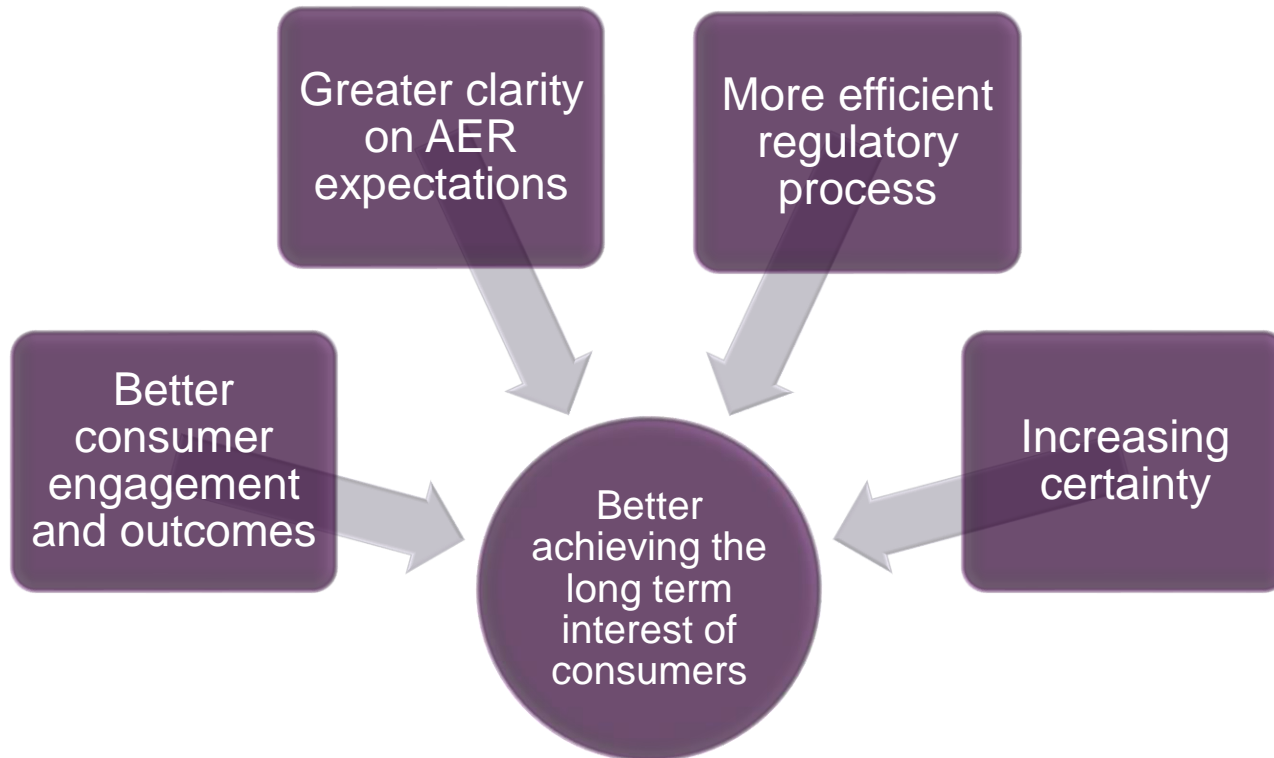

Eric Groom

## Context of the Better Resets Handbook

- Next steps for network regulation – building on previous work and improving consumer outcomes

# Better Resets Handbook benefits

## Aims of this workshop

- We want to hear stakeholders views on the handbook
- Questions we are particularly interested in:
  - Will the handbook achieve the desired benefits?
  - Are the incentives offered by the targeted review stream sufficient for network businesses to want to access it?
  - Our preference is to apply the targeted review stream process to a limited number of network businesses? What approach or criteria should we use to determine which network businesses should be selected?
  - What are their views on the expectations for consumer engagement, capital expenditure, operating expenditure, depreciation and tariff structure statements.

# AER overview of Handbook expectations

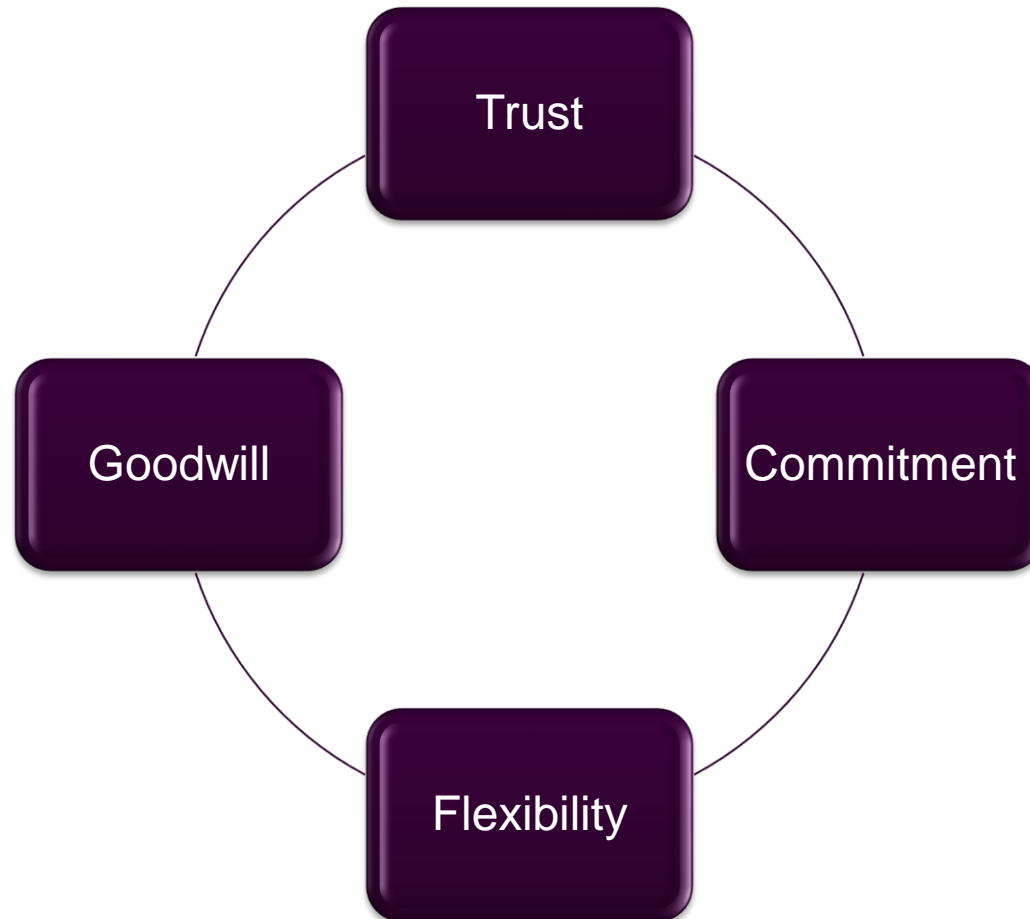

Arek Gulbenkoglu

# AER closing presentation

Eric Groom

# Keys to making the handbook a success

## Thank you and next steps

- Submissions close 20 October 2021
- Aim to have Handbook finalised by end of the year
- If you have any questions, or would like to meet with us to discuss the draft Handbook, please do not hesitate to contact us ([regulatoryinnovation@aer.gov.au](mailto:regulatoryinnovation@aer.gov.au))
