Dear Mr Woodrow

**Proposed revocation and substitution of TasNetworks' distribution determination  
2019–2024**

On 30 April 2019 the Australian Energy Regulator (AER) made its distribution determination for TasNetworks for the regulatory control period 1 July 2019 to 30 June 2024.

Subsequent to making the determination, and following discussions with yourself and AER staff on 9 May 2019, we have become aware of errors in table 15-9 (metering tariffs) of Attachment 15 – Alternative control services, that support our distribution determination.

Under rule 6.13 of the National Electricity Rules (NER), the AER may revoke a distribution determination where there has been a material error or deficiency of one or more of the following kinds:

- (1) a clerical mistake or an accidental slip or omission;
- (2) a miscalculation or misdescription;
- (3) a defect in form; or
- (4) a deficiency resulting from the provision of false or materially misleading information to the AER.

We consider the identified errors are material and would come within the scope of rule 6.13 of the NER.

The AER considers it appropriate to revoke the determination under rule 6.13 of the NER and substitute it with a new determination. The substituted determination may only vary from the prior determination to the extent necessary to correct the relevant material error or deficiency and having first consulted with TasNetworks before doing so.

We intend to make a determination to correct the identified error under rule 6.13 of the NER as soon as possible.

If you have any queries on this matter please contact Robyn Pickering, A/g Director AER Networks, on (07) 3835 4659.

Yours, sincerely
