10.25 to 10.35	AEC – initial response to draft
10.35 to 10.45	ECA – initial response to draft
10.45 to 11.25	Questions
11.25 to 11.30	Next steps & forum close (AER)

Stand-alone power systems (SAPS)

- An exemption to allow DNSPs to provide generation services for DNSP-led SAPS up to a cap on the annual revenue earned from these services.

Category	Revenue cap of annual revenue requirement
1	0.2 per cent
2	0.07 per cent
3	0.001 per cent

- Implement reporting obligations to provide transparency and information to prospective third party providers.

Batteries

- With an approved waiver, DNSPs may provide contestable services with a battery (e.g. supply excess capacity to third parties).
- A DNSP may apply to us for a waiver where it considers the benefits outweigh the harms.
- Guidance on information to include in a waiver application.

Guideline minor amendments

Staff sharing

Information access and disclosure

Materiality of breaches

Timing of annual reports

Branding

Cost allocation

Compliance reporting

Transitional arrangements
