8 September 2020

Dear Nerise

Re: Part 24 exemptions – Roma North and Atlas projects

I refer to your applications dated 15 July 2020 seeking exemptions from Part 24 of the National Gas Rules (NGR) for the Roma North Gas Processing Facility (Pipeline) and the Atlas Gas Processing Facility (Pipeline).

The AER has assessed these applications and, on the basis of the information that you have provided, has determined to grant conditional (category 2) exemptions for each of these facilities. The exemptions will expire on 1 March 2024.

As required by Rule 611(10), please notify the AER if circumstances change such that these facilities no longer qualify for the conditional exemptions.

Rule 611(9) requires the AER to maintain a public register for Part 24 exemptions. The exemption details for the Roma North Gas Processing Facility (Pipeline) and the Atlas Gas Processing Facility (Pipeline) will be published on the register.

If you wish to discuss the content of this letter or have any questions, please contact Jeremy Llewellyn on (07) 3835 4610.

Yours sincerely

Peter Adams
