Dear [REDACTED]

**Re: Expiring exemptions under Part 23 of the National Gas Rules**

I am writing in relation to your applications of 5 October relating to exemptions under Part 23 of the National Gas Rules (NGR) for 2 pipelines. We note that these pipelines currently hold exemptions from Part 23, which are expiring on 12 December 2022 and 3 January 2023.

The AER has assessed the applications and has determined to grant the following exemptions:

- Gas Networks Victoria Category 2 3 January 2028  
(formerly Enwave Victorian Networks)
- Tas Gas Networks Category 3 12 December 2027

The exemptions are valid for 5 years, and expire on dates shown above.

As set out in Rule 585(8) please notify the AER without delay if circumstances change such that a pipeline no longer qualifies for the exemption granted.

Rule 585(7) requires the AER to establish, publish and maintain a register of exemptions. The register will be updated to reflect these exemption renewals. Please do not hesitate to contact [AERNonschemeexemptions@er.gov.au](mailto:AERNonschemeexemptions@er.gov.au) if we can be of any further assistance.

Yours sincerely

General Manager  
Network Expenditure
