Gas Networks**

Attachment 1.4A

Confidentiality Claims

Response to Victorian Gas Substitution Roadmap

September 2022

1 Introduction

We submit revisions to our Australian Gas Networks (AGN) Victoria and Albury natural gas distribution network (the Network) Access Arrangement (AA) Proposal for the period 1 July 2023 to 30 June 2028 having regard to the Australian Energy Regulator's (AER's) Confidentiality Guideline (the Guideline).

Consistent with this Guideline, we have relied on as little confidential information in our GSR Response as possible, however, at times it was necessary to call upon commercial and customer sensitive information to ensure the robustness of our response. In these circumstances, we have marked confidential information:

- in CONFIDENTIAL documents by marking confidential information using yellow highlights;
- in PUBLIC documents by redacting confidential information using black highlights; and
- in PUBLIC spreadsheets by marking confidential information with the formatting "[c-i-c]".

At times it was also necessary to make entire documents confidential.

Table 1 of this Attachment summarises all confidentiality claims we have made in relation to this GSR Response. For comprehensiveness, all documents and models provided to the AER with our GSR Response on 2 September 2022 have been included in the remaining sections of this Attachment.

Table 2 provides detail on the percentage of pages (or worksheets of spreadsheets) which contain confidential information.

AGN confirms that we consent to all non-confidential information being disclosed on the AER's website.
