

AusNet GAAR Confidentiality checklist

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
<p>ASG – GAAR 2024-28 - EPA cost build up – 1 July 2022 – CONFIDENTIAL</p>	<p>Cost build-up of our EPA opex step change.</p>	<p>Opex.</p>	<p>Other & Market sensitive cost inputs.</p>	<p>This document contains sensitive information with respect to the outcomes of our assessment framework and contains our unit rate assumptions for undertaking environmental works.</p>	<p>Disclosure may cause alarm because the need to under further works may be viewed in a negative way.</p> <p>Disclosure will also affect our ability to obtain competitive prices in the future.</p>	<p>Public alarm could overshadow and negatively affect our ability to undertake further investigations as required under the Duty to Manage requirement.</p> <p>It is also in consumer's interest to deliver projects at the lowest possible cost. Provision of cost information compromises our ability to source these services competitively.</p> <p>The likely outcome of the information being made public is that the business may face higher costs, which would not be in the long-term interests of consumers.</p>

<p>ASG – GAAR – Appendix 13 – Environmental Protection Act step change – 1 July 2022 – CONFIDENTIAL</p> <p>Pg 6 (Section 1.4, Section 1.5.1), 7 (Section 1.5.1) (Table 4, Section 1.5.2), 8 (Section 1.5.3, Section 1.6), 9 (Section 1.7)</p>	<p>Detailed explanation of the EPA opex step change calculation.</p>	<p>Opex.</p>	<p>Other & Market sensitive cost inputs.</p>	<p>This document contains sensitive information with respect to the outcomes of our assessment framework and our unit rate assumptions for undertaking environmental works.</p>	<p>Disclosure may cause alarm because the need to undertake further works may be viewed in a negative way.</p> <p>Disclosure will also affect our ability to obtain competitive prices in the future.</p>	<p>Public alarm could overshadow and negatively affect our abilities to undertake further investigations as required under the Duty to Manage requirement.</p> <p>It is also in consumer's interest to deliver projects at the lowest possible cost. Provision of cost information compromises our ability to source these services competitively.</p> <p>The likely outcome of the information being made public is that the business may face higher costs, which would not be in the long-term interests of consumers.</p>
<p>ASG - GAAR- Appendix 14 - Rate of return averaging periods - 1 July 2022 – CONFIDENTIAL, pp., 2, 3 and 4 (out of 4 pages)</p>	<p>Dates provided identify the debt data averaging periods for use in determining the rate of return.</p>	<p>Rate of Return.</p>	<p>Market Sensitive cost inputs.</p>	<p>Information identifies the businesses debt data averaging periods for all years of the 2024-28 access arrangement period.</p>	<p>If the periods were publicly disclosed, this is likely to compromise the business' ability to raise debt or hedge coverage within the averaging period on an efficient basis because other debt market participants would become aware that the business had an incentive to try and obtain a large quantity of debt or hedge</p>	<p>The likely outcome of the information being made public is that the businesses costs would rise which would not be in the long-term interests of consumers. Accordingly, the publication of the information does not provide any detriment to stakeholders in their ability to assess and understand the substance of all issues arising from the business's information.</p>

					coverage in that limited period.	Further, there is no public benefit to be gained from the disclosure of the information
Reset RIN Workbook 2 - E2. Mains Repex	Volume information in tables 2.2.1 and 2.2.2.	Capex Volume information.	Market sensitive.	Unit pricing at a project level can be calculated and its interpretation may affect AusNet's ability to obtain competitive prices in future infrastructure transactions, such as tender processes for projects.	Provision of this information could compromise competitive tender processes.	It is in consumer's interest to deliver projects at the lowest possible cost. Provision of cost information compromises AusNet's ability to source these services competitively.
