

Response to 9.5 (c)

JAM passes its incurred costs onto AAD, with no additional margins, management fees or incentive payments or penalties. For example, please refer to the Tables 1 (Opex) and 2 (Capex) of the JAM 2014 annual RIN response to the AER (in relation to AAD). The response demonstrates that JAM made no profit on the services provided to AAD for the year ending 30 June 2014.

Refer to Table 1, Schedule 3 of the renewed DAMS which sets the starting Services Fees for the initial contract year of the renewed DAMS (RY13/14)
