Annual Compliance Order

Matters to be specifically addressed annually by service providers and related providers

Allgas Energy Pty Limited ACN 009 656 446

For the year ended 30 June 2018

Introductory Statement

Allgas Energy Pty Limited (Allgas Energy) is not aware of any breach of any of the obligations it has as a service provider providing pipeline services by means of a distribution pipeline which is covered for the purposes of the regulatory regime of the National Gas Law and the National Gas Rules, other than as noted below.

Allgas Energy has maintained a compliance program during the year to ensure that:

- (a) appropriate internal procedures have been established and maintained to ensure compliance with its obligations under the National Gas Law and National Gas Rules;
- (b) the Board of Directors of Allgas Energy can be made aware of any breach of those obligations;
- (c) remedial action can be taken as soon as possible to rectify any breach of the obligations, and that completion of this action can be reported to the Board of Directors; and
- (d) the compliance program is reviewed regularly and as necessary.

1. General duties for the provision of pipeline services of covered pipeline services by a service provider	
1.1 Legal entity	
(a) <i>Nominate the type of legal entity the service provider is according to the specified kinds of legal entity in section 131 of the NGL.</i>	Allgas Energy Pty Limited ACN 009 656 446 is a legal entity registered under the Corporations Act 2001 of the Commonwealth.
(b) <i>What is the registered business name and ABN of the service provider legal entity providing the covered pipeline service?</i>	The registered business name of the legal entity providing the covered pipeline service is Allgas Energy Pty Limited. The ABN is 52 009 656 446.
(c) <i>Provide an outline of the group structure which is controlled by or which the service provider is a part (including identification of the head company, nature of investment or entity, relationship to the service provider and proportion of assets owned/share of investment within the group). This should include any assets (businesses) it owns or that own it. The group structure should include business that are beneficially controlled such as trustee companies, jointly owned or operated business such as partnerships or joint ventures, businesses that are significant investments or controlled. This can also be represented as an organisational chart.</i>	The group structure is presented in the organisational chart in Appendix 1.
1.2 Preventing or hindering access	
(a) <i>Is the service provider aware of any claims that it has prevented or hindered access to services on the covered pipeline within the terms of section 133 of the NGL?</i>	The service provider is not aware of any claims it has prevented or hindered access to services on the covered pipeline within the terms of section 133 of the National Gas Law.
1.3 Supply and haulage of natural gas	
(a) <i>Does a producer supply natural gas through the covered pipeline at a place other than the exit flange of the producer's processing plant?</i>	One or more of the users on the distribution network may be "producers" as that term is defined in the National Gas Law. It is likely that those persons supply natural gas to other parties through the distribution network.

1.4 Queuing requirements	
(a) <i>Has the service provider complied with the queuing requirements of the applicable access arrangement during the year?</i>	There were no queuing requirements in an applicable access arrangement with which the service provider had to comply during the year.
1.5 Service provider providing light regulation services must not price discriminate	
(a) <i>Does the service provider provide light regulation services?</i>	The service provider provides light regulation services. On 28 April 2015, the National Competition Council made a determination that services provided by the Allgas Energy gas distribution network be light regulation services. The determination became effective on 22 July 2015.
(b) <i>If so, are there any differences in the prices of the provision of those services? Please provide an explanation as to why these price differences exist.</i>	Different tariffs apply to different classes of end users, and the tariffs for the largest end users vary by location. However, with the exception of a small number of legacy contracts approved by the AER in the previous Access Arrangement, all users of the distribution network pay the same tariff for the same service to an end user.
