

26 June 2015.

Mr Sebastian Roberts,
General Manager, Network Regulation,
Australian Energy Regulator,
GPO Box 520,
Melbourne, 3001
Victoria.

Dear Sir,

We are in receipt of a copy of the CIT submission to you dated the 19th June concerning their strong opposition to the proposals put forward by SA power Network, and wish to voice our support for the approach that the CIT has taken.

Power pricing has been a major issue for all users in South Australia and the increases over recent years have been considerable and well in excess of any CPI comparison and certainly within the Wine and Brandy industry, unable to be recouped from the highly competitive market place.

Comparing our total power bill in 2011 of \$497,000 to our power bill in 2014 of \$722,000 show an increase over the 3 years of 45%. Needless to say this is unsustainable.

Your efforts to curb the enthusiasm of SAPN is supported and further intervention encouraged.

With thanks,

Yours sincerely,

A handwritten signature in black ink, appearing to read "John Angove". The signature is fluid and cursive, with a large initial "J" and "A".

John Angove.
Managing Director
