

>> To whom it may concern,

I am writing to you to object to the Application from South Stradbroke Utilities P/L to sell electricity at Couran Cove.

I have lived at Couran Cove for six years, and presently own two properties Villa X and Lindsay X. In the last year the power and water has been off often! The worst being for 3 days, requiring an insurance claim for spoilage thru my insurance coverage. I have no confidence in the present management/contractors to either maintain or run efficiently and reliably our power supply. It requires transparency for all!

The general attitude towards owners is dismissive and controlling, from your applicants.

The above is my formal objection to the above application. It would result in a lot of extra cost for many owners! All for the best interests and financial gain of the applicant. This all to the detriment of individual owners, who are the majority.

It is my experience that the applicants are not reliable or trustworthy business operators. I do hope you defend the best interests of our entire community here at Couran.

Thanks for your time and attention.

Regards,
