Powerlink Negotiating Framework - Table of Compliance
May 2011

Powerlink Negotiating Framework – Table of Compliance

AER Submission Guidelines Reference	Requirement	Powerlink Revenue Proposal Reference
5.2(b)	A TNSP's negotiating framework must specify a requirement for the TNSP to provide a description to the service applicant of the nature of the negotiated transmission service that is the subject of negotiation, including details of what the TNSP would provide to the service applicant as part of that service.	See section 1 items F and G and section 2 items H, I and J.
5.2(c)	Consistent with clause 6A.9.5(c)(1) of the NER, a TNSP's negotiating framework must specify a requirement for the TNSP and a service applicant to negotiate in good faith the price at which the negotiated transmission service is to be provided.	Section 3, item 2.1.
5.2(d)	Consistent with clause 6A.9.5(c)(2) of the NER, a TNSP's negotiating framework must specify a requirement for the TNSP to provide all such commercial information as a service applicant may reasonably require to enable that applicant to engage in effective negotiation with the TNSP as to the price at which the negotiated transmission service is to be provided, including the cost information described below.	Section 3, item 6.1.
5.2(e)	Consistent with clause 6A.9.5(c)(3) of the NER, a TNSP's negotiating framework must specify a requirement for the TNSP to: (1) identify, and inform a service applicant of , the reasonable costs, and/or the increase or decrease in costs (as appropriate), of proving the negotiated transmission service (2) demonstrate to a service applicant that the charges for providing the negotiated transmission service reflect those costs and/or the cost increment or decrement (as appropriate).	Section 3, item 6.1.
5.2(f)	Consistent with clause 6A.9.1(1) of the NER, a TNSP's negotiating framework must specify a requirement for the TNSP to base its price for a negotiated transmission service on the costs incurred in providing that service, determined according to the TNSP's approved cost allocation methodology.	Section 3, item 6.1.
5.2(g)	A TNSP's negotiating framework must specify a requirement for the TNSP to provide the service applicant with the terms and conditions on which the TNSP would provide its negotiated transmission service to the service applicant.	Section 3, item 6.1.

AER Submission Guidelines Reference	Requirement	Powerlink Revenue Proposal Reference
5.2(h)	Consistent with clause 6A.9.5(c)(4) of the NER, a TNSP's negotiating framework must specify a requirement for a service applicant to provide all such commercial information as the TNSP may reasonably require to enable the TNSP to engage in effective negotiation with that applicant as to the price at which the negotiated transmission service is to be provided.	Section 3, items 4 and 5.
5.2(i)	Consistent with clause 6A.9.5(c)(5) of the NER, a TNSP's negotiating framework must specify a requirement for: (1) the TNSP to provide a reasonable period of time for commencing, progressing and finalising negotiations with a service applicant as to the price at which the negotiated transmission service is to be provided (2) each party to the negotiation to use its reasonable endeavours to adhere to those time periods during the negotiation.	Section 3, items 3.4 and 3.5. Section 3, items 3.3.2 and 3.4.2.
5.2(j)	Consistent with clause 6A.9.5(c)(6) of the NER, a TNSP's negotiating framework must specify a requirement for the TNSP to provide a process for dispute resolution that provides that all disputes about the price at which negotiated transmission services are to be provided are to be dealt with according to schedule 6A.3 of the NER.	Section 3, item 9.
5.2(k)	Consistent with clause 6A.9.5(c)(7) of the NER, a TNSP's negotiating framework must specify for payment by a service applicant of the TNSP's reasonable direct expenses incurred in processing the application to provide the negotiated transmission service.	Section 3, item 10.
