

Attachment 1 - Confidentiality template

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
Tariff Approval Model HY2021 Prop2021DistTar worksheet 2021DisTarRebalCont worksheet Est2020DisRev worksheet Prop2021TransTar worksheet Prop2021JSTar worksheet	Customer forecast volumes and revenue information	HY2021 electricity pricing proposal	Personal information	These customers can be easily identified. The customer forecast volumes provides information about each customer's consumption behaviour and the calculated revenue from the customer forecast volumes provides information about each customer's estimated network costs.	Disclosure of information may raise privacy considerations.	All network tariffs have been adjusted and are compliant prior to customer forecasted volumes and revenue information was redacted. The redaction of this information will not impact the network prices for HY2021.
Stand alone and avoided cost model Summary worksheet	Customer forecast volume and	Stand alone and avoided cost compliance	Personal information	Information can be used to derive customers' estimated network costs.	Disclosure of information may raise privacy considerations	The calculated average Duos bill figures and stand alone costs are included in the annual tariff proposal and

	revenue information					stakeholders are informed that the network tariffs are compliant to the stand alone and avoided costs Rule requirements.
Stand alone and avoided cost model Small – 4,500 kWh worksheet Small – 9,000 kWh worksheet	Cost related information	Stand alone and avoided cost compliance	Market sensitive cost inputs	The cost information may affect AusNet Services' ability to obtain a competitive price in future.	Provision of this information could compromise competitive tender processes.	The stand alone costs are included in the annual tariff proposal and stakeholders are informed that the network tariffs are compliant to the stand alone and avoided costs Rule requirements

Attachment 2 - Proportion of confidential material

Submission Title	Number of pages of submission that include information subject to a claim of confidentiality	Number of pages of submission that do not include information subject to a claim of confidentiality	Total number of pages of submission	Percentage of pages of submission that include information subject to a claim of confidentiality	Percentage of pages of submission that do not include information subject to a claim of confidentiality
Tariff Approval Model HY2021	5	12	17	29%	71%
Stand alone and avoidable cost model	4	1	5	80%	20%

Note: This notice is an approximate indication of the proportion and comparative proportion of material in AusNet Services Electricity Pricing Proposal submission that is subject to a claim of confidentiality compared to that which is not.
