

## Attachment 1 - Confidentiality template

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of consumers).
EDPR 2022-2026 Regulatory Proposal Section 13.6.2.2 p 201 Section 13.6.2.2 p 203	Cost related information	Depreciation	Market sensitive cost inputs	The cost information may affect AusNet Services' ability to obtain a competitive price in future infrastructure transactions such as tender processes for this project	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet Services' ability to source these services competitively.
Appendix 9B EDPR Unit Rates Section 3.1 page 5, 6 Section 3.2 page 8, 9, 10 Section 3.3 page 11, 12 Section 3.4 page 13, 14	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect AusNet Services' ability to obtain a competitive price in future infrastructure transactions such as tender processes for this project	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet Services' ability to source these services competitively.
Codified Areas SWER Powerline Replacement Program Section 1.2 page 4 Section 5.3 page 15	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect AusNet Services' ability to obtain a competitive price in future infrastructure transactions such as tender processes for this project	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet Services' ability to source these services competitively.

<p>Codified Area Strategy Section 5.2.2 page 15</p>	<p>Equipment Supplier / Manufacturer information</p>	<p>CAPEX</p>	<p>Market Sensitive cost inputs</p>	<p>The name of equipment manufacturer / brand is considered sensitive and confidential</p>	<p>Provision of this information could compromise competitive tender processes</p>	<p>The redaction only removes references to the manufacture or supplier of the equipment. The equipment type name and description are still retained in the strategy. The redaction does not impact on the significance of the information provided. Provision of this information would not be of any public benefit, but may compromise AusNet Services in future dealings with the equipment manufacturer / supplier.</p>

Appendix 14A Rate of Return Averaging Periods	The nominated debt and equity data averaging periods for 2022-26 for use in determining the rate of return.	The rate of return.	market sensitive cost inputs	If the periods were publicly disclosed, this is likely to compromise the business's ability to raise debt or hedge coverage within the averaging period on an efficient basis because other debt market participants would become aware that the business had an incentive to try and obtain a large quantity of debt or hedge coverage in that limited period.	If the periods were publicly disclosed, this is likely to compromise the business's ability to raise debt or hedge coverage within the averaging period on an efficient basis because other debt market participants would become aware that the business had an incentive to try and obtain a large quantity of debt or hedge coverage in that limited period.	The likely outcome of the information being made public is that the businesses costs would rise which would not be in the long term interests of consumers. Accordingly, the publication of the information does not provide any detriment to stakeholders in their ability to assess and understand the substance of all issues arising from the businesses information. Further, there is no public benefit to be gained from the disclosure of the information.
Appendix 1D Related Party Arrangements Section 4.1 page 4 Section 5 page 5	Commercial in confidence contract information	Capex and Opex	Market Sensitive cost inputs	This information contains details on current suppliers' contracts	Disclosure will effect both supplier's market position and AusNet Services' ability to obtain competitive prices in the future	Little public benefit or consumer interest in supplier contracts details
ASD – SAC Model	Identification of customers	Tariffs	Personal	Information directly identifies customers and their proposed activities	Disclosure could result in breach of privacy obligations	Provision of this information would not be of any public benefit, but may breach obligations.
ASD – Distribution Proposal PTRM model (Jan-Jun21) – 310120 Forecast revenues	Identification of customers	Tariffs	Personal	Information directly identifies customers and their proposed activities	Disclosure could result in breach of privacy obligations	Provision of this information would not be of any public benefit, but may breach obligations.
RIN Workbook 1	Cost related information	Capex	Market sensitive cost inputs	The cost information may affect AusNet Services' ability to obtain a competitive price in future infrastructure transactions such as tender processes for this project	Provision of this information will compromise competitive tender processes	It is in consumers' interest to deliver this project at the lowest possible cost. Provision of cost information compromises AusNet Services' ability to source these services competitively.
