| (c) <i>Provide an outline of the group structure which is controlled by or which the service provider is a part (including identification of the head company, nature of investment or entity, relationship to the service provider and proportion of assets owned/share of investment within the group). This should include any assets (businesses) it owns or that own it. The group structure should include business that are beneficially controlled such as trustee companies, jointly owned or operated business such as partnerships or joint ventures, businesses that are significant investments or controlled. This can also be represented as an organisational chart.</i> | The service provider is part of the APA Group. An organisational chart setting out the APA Group structure, and showing the service provider, is provided in Appendix 1. |

1.2 Preventing or hindering access

- | | |
|---|--|
| (a) <i>Is the service provider aware of any claims that it has prevented or hindered access to services on the covered pipeline within the terms of section 133 of the NGL?</i> | The service provider is not aware of any claims it has prevented or hindered access to services on the covered pipeline within the terms of section 133 of the National Gas Law. |
|---|--|

1.3 Supply and haulage of natural gas

- | | |
|--|---|
| (a) <i>Does a producer supply natural gas through the covered pipeline at a place other than the exit flange of the producer's processing plant?</i> | One or more of the users on the pipeline may be "producers" as that term is defined in the National Gas Law. Those persons may supply natural gas to other parties at delivery points on the network. |
|--|---|

1.4 Queuing requirements

- | | |
|---|---|
| (a) <i>Has the service provider complied with the queuing</i> | The service provider has complied with the queuing policy |

<i>requirements of the applicable access arrangement during the year?</i>	requirements of the Central Ranges Gas Distribution Network Access Arrangement.
1.5 Service provider providing light regulation services must not price discriminate	
(a) <i>Does the service provider provide light regulation services?</i>	The service provider does not provide light regulation services.
(b) <i>If so, are there any differences in the prices of the provision of those services? Please provide an explanation as to why these price differences exist.</i>	Not applicable.
2. Structural and Operational Separation Requirements (Ring Fencing)	
2.1 Carrying on of a related business	
(a) <i>Provide a list of associates of the service provider that take part in a related business and for each associate describe what the nature of the related business is.</i>	APA Group's business model is the ownership and operation of energy infrastructure. The production, purchase and sale of natural gas are not parts of this business model. Where they occur, it is either incidental to the business of APA Group entities or a legacy of businesses which have been acquired by APA. Central Ranges Pipeline Pty Limited's business is the ownership and operation of the Central Ranges Pipeline and Central Ranges Gas Distribution Network. Central Ranges Pipeline Pty Limited does not produce natural gas and does not purchase or sell natural gas other than for operational purposes. Central Ranges Pipeline Pty Limited does not have any associates which take part in a related business other than the following associates: • N.T. Gas Distribution Pty Limited N.T. Gas Distribution Pty Limited (100 percent owned by APT Pipelines (NT) Pty Limited) operates as a bundled utility and therefore carries on a related business. The AER has granted a waiver to APT Pipelines (NT) Pty Limited in relation to the provision of services by the marketing staff of APT Pipelines (NT) Pty Limited to N.T. Gas Distribution Pty Limited. • APT Facility Management Pty Limited APT Facility Management Pty Limited buys and sells gas for the purposes of electricity generation and the

operation of natural gas vehicles.

Gas for co-generation is purchased and sold in Queensland at Baillie Henderson Hospital (Toowoomba) and Toowoomba Base Hospital (Toowoomba).

APT Facility Management Pty Limited buys gas for natural gas vehicles in Western Australia. The gas, once purchased, is compressed and sold as compressed natural gas to bus operators at various bus depots.

APT Facility Management Pty Limited bought natural gas in Western Australia and has contracted for a storage service at the Mondarra Gas Storage Facility in order to store this gas prior to its eventual resale. While stored in Mondarra, the gas can be used as additional base/cushion gas.

- APA Facilities Management Pty Limited

APA Facilities Management Pty Limited buys and sells gas for the purpose of supplying liquefied natural gas for vehicles and stationary applications (e.g. replacing diesel for power generation at remote mines) from Dandenong in Victoria. The gas, once purchased, is liquefied by a third party on APA's behalf and then sold by APA Facilities Management Pty Limited as liquefied natural gas to LNG customers who then deliver the product to their end users or re-distribution outlets (e.g. petrol stations). APA Facilities Management Pty Limited holds an exemption from the retail regulations associated with the sale of LNG from the Dandenong facility.

- Diamantina Power Station Pty Limited

Diamantina Power Station Pty Limited purchases gas under a long term supply arrangement. Currently, this gas is on-sold to a major user for its tolling (electricity generation) purposes.

(b) Provide a list of associates that are service providers and/or provide pipeline services.

	purpose other than the purpose for which the information was given to the service provider. The service provider took all practicable steps to protect relevant confidential information in the service provider's possession against improper disclosure or use.
(b) <i>Has the service provider established an internal protocol or policy guideline or procedure manual for the handling of confidential information?</i>	Central Ranges Pipeline Pty Limited is part of the APA Group. Employees of APA who are involved with the Central Ranges Gas Distribution Network have been informed of their obligations with respect to confidential information. Quarterly compliance reviews reinforce awareness of these obligations. Employees are required to sign confidentiality agreements upon commencement and standard employment contracts contain confidentiality obligations. APA has also required contractors having access to confidential information to observe the requirements of the National Gas Law in relation to such confidential information. APA monitors compliance performance, including compliance with confidentiality obligations, quarterly. This monitoring is undertaken by the General Manager Strategy and Regulatory and relevant commercial personnel associated with the assets. The results are reported to the Board. More generally all APA employees are required to comply with the APA Code of Conduct, which explicitly addresses appropriate treatment on confidential and proprietary information, including customer information. Employment agreements also include conditions relating to confidentiality. In addition, access to APA computer systems is through individual passwords and user names. Passwords are changed at periodic intervals. Firewall protection is in place to prevent unauthorised access to electronically stored information via the internet. APA offices are secured. A copy of the APA Group's Ring-fencing Policy for covered pipelines and related businesses is provided in Appendix 4. (The policy, which is currently under review, applied during the year ended 30 June 2017.)
