 - c. the exempt customer's tenancy/residency/agreement has ended and the exempt customer is vacating the premises or

 - ii. a Friday or the day before a public holiday or
 - iii. a weekend or a public holiday or
 - iv. the days between 20 December and 31 December (inclusive) in any year.
2. For electricity, the exempt person must contact its distributor to ask whether disconnection of a retail customer in the relevant jurisdiction would be prohibited on that

day due to extreme weather conditions. Where the distributor confirms that the disconnection of a retail customer would be prohibited on that day, the exempt person must not disconnect the exempt customer's premises.

3. This condition does not apply where the exempt customer has requested disconnection.
4. This condition does not apply where continuity of supply to the premises would be unsafe.
5. This condition does not apply where the energy supply agreement between the exempt person and exempt customer has been terminated.

Condition 11 - Reconnection or re-energisation

Where an exempt customer is disconnected in accordance with conditions 9 and 10 and the customer makes a request for reconnection, the exempt person must reconnect the premises as soon as practicable after a request for reconnection is made. A request for reconnection may be made ten business days after disconnection, or as soon as the matter that led to the disconnection is rectified, and
 - a. any charges for reconnection are paid and
 - b. if the exempt customer still has outstanding amounts owed under the exempt customer's energy account, the customer agrees to enter into a payment plan with the exempt person.^{1 2}
2. Subject to condition 11(1), the exempt person must reconnect the premises (or, where required, arrange with the distributor to reconnect the premises) as soon as practicable, and no later than two business days from when the request was made.

 - c. the exempt customer's expected energy consumption needs over the following 12 month period or the duration of their tenancy/residency/agreement if the tenancy/residency/agreement is less than 12 months.

¹ The requirement for exempt customers to wait 10 days before requesting reconnection does not preclude an exempt person from reconnecting prior to this date where it is directed to do so under jurisdictional legislation.

² The AER recommends that exempt persons consider the [AER Sustainable Payment Plans Framework](https://www.aer.gov.au/retail-markets/retail-guidelines-reviews/aer-sustainable-payment-plans-framework) when agreeing a payment plan with an exempt customer. The framework can be found at <https://www.aer.gov.au/retail-markets/retail-guidelines-reviews/aer-sustainable-payment-plans-framework>

Condition 14 - Choice of retailer

1. Where an exempt customer is eligible under state or territory legislation to purchase energy from a retailer of their choice, the exempt person must not do anything to discourage or prevent them from exercising this choice, whether by:
 - a. requiring the exempt customer to waive their ability to choose a retailer
 - b. unreasonably hindering their efforts to find another retailer or
 - c. unreasonably hindering any metering or network changes required to enable choice of retailer.

Condition 15 - Contact details

1. The exempt person must provide a means of contact for account inquiries and complaints that can be readily accessed by exempt customers. Where a telephone number is provided, the charge for this call must be no more than the cost of a local call.

Condition 16 - Dispute resolution

1. The exempt person must develop and make a set of procedures detailing the exempt person's procedures for handling complaints and disputes, and those procedures must be provided to exempt customers in accordance with condition 2(1)(d)(i).

3. In the event of a complaint or dispute concerning the sale of energy to an exempt customer, and in the absence of a determination of the relevant tenancy tribunal if the customer is a tenant, the exempt person must:
 - a. deal with the complaint or dispute in accordance with the exempt person's procedures for handling complaints and disputes and
 - b. make reasonable endeavours to resolve the dispute and
 - c. advise the exempt customer:
 - i. of any right the exempt customer has to access an energy ombudsman (if applicable), including to lodge a complaint or for free independent information and advice, or any other external dispute resolution body in the state or territory where the exempt customer is located, and
 - ii. of the telephone number and other contact details of the energy ombudsman (if applicable).
4. Where the exempt person and a customer/s are unable to reach an agreed solution to an electricity dispute, the matter shall be settled by commercial arbitration in accordance with the *Commercial Arbitration Act 2013* (Qld). This paragraph does not apply to any dispute that can be resolved by way of a binding determination under an energy ombudsman scheme.

Condition 17 – Member of energy ombudsman scheme

1. The exempt person must, if permitted by an energy ombudsman scheme:
 - a. be a member of, or subject to, an energy ombudsman scheme for the jurisdiction where it sells energy to exempt customers and
 - b. comply with the requirements of that scheme.

Condition 18 – Planned interruptions to supply

 - b. if providing a telephone response that is automated, provide options for exempt customers who call the service to be directly connected to a telephone operator if required and
 - c. use its best endeavours to restore supply to affected exempt customers as soon as possible.

Condition 20 - Life support customers

1. Where an exempt customer provides the exempt person with confirmation from a registered medical practitioner that a person residing at the exempt customer's premises requires life support equipment, the exempt person must:
 - a. advise the person whose embedded distribution network the sale of energy is occurring within (if different from the exempt person) that a person residing at the premises requires life support equipment and
 - b. advise the exempt person's authorised retailer and distributor that a person residing at the premises requires life support equipment and
 - c. provide the exempt person's authorised retailer and distributor with any relevant information about the premises for the purposes of updating their records and registers.
2. The exempt person must maintain records of any exempt customers who have life support equipment that depends on energy for its operation on their premises.
3. The exempt person must, at the time of registering the premises as having life support, provide the exempt customer with:
 - a. general advice that there may be a planned or unplanned interruption to the supply at the address
 - b. information to assist the exempt customer to prepare a plan of action in case of an unplanned interruption

 - c. at the conclusion of the exempt customer's lease for, or occupancy of, the premises to which the energy is supplied or
 - d. when the exempt customer starts receiving energy retail services from a different retailer or exempt person or
 - e. when a different exempt customer starts receiving customer retail services for the premises or
 - f. at the end of a period of 10 business days commencing on the day the exempt customer's premises are disconnected, where the conditions for reconnection have not been met.
2. Termination of an arrangement to supply energy does not affect any rights or obligations that have already accrued under the agreement.

 1. the name of the exempt customer
 2. the address of the exempt customer's premises

Condition 23 – Electricity infrastructure replacement and upgrades

1. The exempt person may replace or upgrade electricity infrastructure, including metering infrastructure, if and when it comes to the end of its operating life.
2. The exempt person may only recover the actual infrastructure replacement or upgrade costs from exempt customers. The exempt person must be able to provide written evidence of these costs, and demonstrate to exempt customers how these costs are recovered through relevant charges and/or tariffs.

Condition 24 – Metering

1. The exempt person must install an individual meter to measure consumption at an exempt customer's premises when requested by the exempt customer. The exempt person may pass on actual costs incurred.
