Contents

1. **CONFIDENTIALITY REGISTER4**

2. **PROPORTION OF CONFIDENTIAL MATERIAL5**

1. Confidentiality Register

Title, page and paragraph number of document containing confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, WACC etc.)	Identify the recognised confidentiality category that the information falls within.	Provide a brief explanation of why the information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment may be caused from disclosing the identified information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit (especially public benefits such as the effect on the long term interests of customers).
Nominated Averaging Period Letter to AER, pages 1-2	Nominated averaging periods	Rate of return	Market sensitive cost inputs	This information would affect ElectraNet's ability to obtain competitive prices in relation to the cost of equity and debt; and would distort the Financial Market.	If this information is disclosed it would result in increases to the cost of equity and debt, and distort the market.	If published this information will compromise ElectraNet's ability to deliver the lowest possible costs which would be detrimental to customer's interests due to the higher costs of equity and debt.
Finity – Self-Insurance Estimates, Premium Forecasts and Nominated Pass Through Events, pages 5-7, 12-13, 17-18, 20-23, 24-32, 34-39, 42-56, 66, 68	Details of insurance arrangements including limits of premiums, specific loss events and the associated costs	Operating Expenditure - Details of insurance arrangements	Market sensitive cost inputs	The information could provide details of insurance cover which could allow entities access to information that would adversely affect ElectraNet's ability to negotiate competitive prices.	If this information is disclosed it would impact ElectraNet's ability to obtain competitive prices in the market place.	If published this information will compromise ElectraNet's ability to deliver the lowest possible costs which would be detrimental to customer's interests.
Asset Risk Cost Guideline, pages 7-8, 16, 18, 20-22	Details of individual risk costs applied in the analysis of projects	Capital Expenditure and Operating Expenditure	Market sensitive cost inputs	This information provides details of risk cost assumptions ElectraNet has applied to the occurrence of specific events. If disclosed this would impact on ElectraNet's ability to obtain competitive insurance prices.	If disclosed this information would impact ElectraNet's ability to obtain competitive insurance in the market place.	If published this information could compromise ElectraNet's ability to deliver the lowest possible costs which would be detrimental to customer's interests.
PwC Audit and Review Opinions, pages 1-2	Details of Audit Review and Opinion	Audit Review and Opinion for RIN	Other	This information is provided by PwC which has not given permission for this document to be disclosed as it has been prepared for the AER's specific purpose.	The review and opinion is provided for a specific purpose and could be misinterpreted and used detrimentally by third parties.	Release of the information would be detrimental to the public interest as it would place ElectraNet in breach of its obligations to PwC.
Statutory Declaration, page 1	Details of employees' personal details	Statutory Declaration	Personal information	This provides personal address details about individuals whose identities are apparent.	If this information is disclosed it would result in the privacy of employees being breached.	There is no benefit for this information to be released to the public.
Workbook 1 – Regulatory Determination – Tab 5.4 Utilisation – Spatial, Table: 5.4 Non-Coincident & Coincident Maximum Demand	Maximum demand information for individual customers Coincident and non-coincident MW and MWA forecasts under 10% PoE and 50% PoE conditions	Demand	Personal information	The connection points removed are unregulated connection points and provide information about third parties to whom ElectraNet owes a duty of confidentiality.	If this information is disclosed to the public it would be in breach of the National Electricity Rules (SA), clause 7.7. In addition disclosing this information would potentially be damaging to the third parties, as key commercial insights could be determined from the data.	Release of the information would be detrimental to the public interest, as it would place ElectraNet in breach of its obligations.
RIN Response Supporting Document: Service Target Performance Incentive Scheme Network Capability Component: Network Limits Information, 1 Injection Points, pp. 8-10	Injection point information for individual customers	Demand	Personal information	The injection points removed are unregulated injection points and provide information about third parties to whom ElectraNet owes a duty of confidentiality.	If this information is disclosed to the public it would be in breach of the National Electricity Rules (SA), clause 7.7. In addition disclosing this information would potentially be damaging to the third parties, as key commercial insights could be determined from the data.	Release of the information would be detrimental to the public interest, as it would place ElectraNet in breach of its obligations.

2. Proportion of confidential material

Submission Title	Number of pages of the submission that include information subject to a claim of confidentiality	Number of pages of the submission that do not include information subject to a claim of confidentiality	Total number of pages of submission	Percentage of pages of submission that include information subject to a claim of confidentiality	Percentage of pages of submission that do not include information subject to a claim of confidentiality
ElectraNet Transmission network Revenue Proposal March 2017	59	2644	2703	2%	98%
