Project description

Condition assessment reports identified issues with the selected assets. Significant consequences exist in the event of conductor failure along these lines, if they are not replaced. Primarily, the consequences relate to network availability and safety, but also include: reputation, environment and financial. This project is required to refurbish line conductor and earthwire on selected lines to achieve a life extension of the overall asset. The project is to be completed in the 2018-23 regulatory period. The feeder length and condition assessment identified for conductor replacement is F1888 WATERLOO EAST - MORGAN WHYALLA PS4 – 10km of conductor.

Project options

Base case	Business as usual with no capital expenditure.
Option 1	Replacement in 2018-2023
Option 2	Replacement in 2023-2028

Key modelling assumptions

Financial year runs from 1 July to 30 June.

Real 2018 \$ are used for all monetary values unless otherwise stated.

Inputs to the model

Parameter/Input	Description	Source
Discount rate	Real pre-tax discount rate	ElectraNet estimate
Current financial year	Year to start analysis	When the capital investment is due to occur for the project
Time horizon	Length of time under consideration	Total project life including useful life and if the project occurred in the next regulatory period
Capital costs	Amount of capital investment in real terms for each project option	Estimated capital costs in the estimate from project center
Useful life	Length of time capital investments are expected to provide service	Useful life estimated from original economic justification on project center
Routine maintenance	Annual amount of estimated routine maintenance in real terms	See Detailed Opex Assessment
Corrective maintenance	Annual amount of estimated corrective maintenance in real terms	See Detailed Opex Assessment
Risk	Annual cost of risk if the unit is not replaced	See Detailed Risk Assessment

10 Inputs

User provided parameters and inputs to the model

Inputs

General parameter inputs

Parameter	Unit	Value	Source	Sensitivities		
				Low	Medium	High
Inflation rate	Percentage	2.00%	RBA	1.50%	2.00%	3.00%
Discount rate (real, pre-tax): estimate	Percentage	6.00%	ElectraNet estimate	4.50%	6.00%	8.50%
Discount rate (real, pre-tax): lower bound	Percentage	4.50%	ElectraNet estimate			
First year of analysis	Year	2018	Current financial year			
Base financial year for analysis	Year	2018	Base year			
Time horizon	Years	20	ElectraNet
