Subject: RE: Envestra: Hot Water Meters

Kevin

As previously advised (in July 2009), we charge Origin Energy for the use of our hot water meters. This fee has been escalated over the years at CPI. It should be noted that Origin undertakes the actual meter reading. It is assumed that both costs form part of their Supply Charge.

Envestra's charge to Origin Energy for 2010-11 is \$25.89 (having been increased by 2.89% over the previous year). However, I would point out that Envestra recently decided to exit the ownership of hot water meters and sold its assets in Queensland to Origin Energy in December 2010.

In the circumstances any further queries in relation to this matter should be directed to Origin.

Subject: Envestra: Hot Water Meters

This is an enquiry e-mail via [REDACTED] from:
Kevin McMahon <kkmm2@bigpond.com>

Dear Mr Petherick

I received Hot Water Meter reading fee cost that you charge Origin in Queensland, a year or so ago.
May I request the same info for the current period FY 2010 -2011 -2012?

Also do your Hot Water Meters have pattern approval from the National Measurement Institute, and do Envestra have an exemption for same.

May I request the exemption details if any?

Yours

Kevin McMahon
