

30 April 2018

Ms Paula Conboy  
Chair  
Australian Energy Regulatory  
GPO Box 520  
Melbourne, VIC, 3001

Dear Ms Conboy

## **REGULATORY PROPOSAL**

I am pleased to submit Endeavour Energy's regulatory proposal for the period 1 July 2019 to 30 June 2024. Endeavour Energy is happy to be proposing continuous real price reductions for our customers over this period. We have engaged extensively with our stakeholders with the early release of our directions paper in the middle of last year and followed by our deep dive process. We have made a number of material changes to our proposal as a result of this consultation program that are outlined in the attached documents.

Endeavour Energy's regulatory proposal is compliant with the NER. Our proposal is made up of a plain English overview document, the main proposal document, the Regulatory Information Notice, our Tariff Structure Statement, and supporting information contained in attachments. Due to the volume of material that makes up our regulatory proposal, we will deliver a consolidated pack to the AER's Sydney office.

Endeavour Energy's proposal contains confidential information which Endeavour Energy requests not be published or otherwise disclosed by the AER. As required by the AER's Confidentiality Guideline, we have prepared and attached confidential and public versions of the proposal as well as a confidentiality template setting out the basis of our request for the information be kept confidential and provided the details of the proportion of confidential material.

We look forward to continuing to collaboratively engage with the AER and other stakeholders over the coming months with an aspiration that this dialogue will support a draft determination that is satisfactory to all stakeholders. Should you require further information, please contact Mr Andrew Schille, General Manager Regulation and Corporate Affairs, on (02) 9853 6862.

Yours sincerely

**Tony Narvaez**  
**Chief Executive Officer**  
**Endeavour Energy**
