Dear Ms Kaur,

Re: GasNet Proposed Access Arrangement 2003 – 2007

On behalf of the participants associated with this submission, EnergyAdvice thanks the Commission for the opportunity to make comment on the Access Arrangement proposed by GasNet Australia (Operations) Pty Ltd.

EnergyAdvice has made several submissions to the ACCC on various issues representing a large segment of the major energy users in Australia and is again pleased to represent twelve of its major clients in an effort to present to the Commission, aspects of the proposed Access Arrangement which will have significant adverse impacts on our clients' businesses.

We believe that we have taken a balanced approach when reviewing the proposed Access Arrangement with comment in this submission designed to assist the Commission with its consideration of aspects of the Victorian gas market not readily identified or tabled by any other participant sector of the market.

We offer our further assistance should the Commission wish to clarify or develop any issues raised in this submission.

Yours sincerely

Rick Gallienne  
Director
