29 July 2013

Mr Warwick Anderson
General Manager, Network Regulation
Australian Energy Regulator
GPO Box 3131
CANBERRA ACT 2601

Dear Mr Anderson

South Australian Framework and Approach Paper

We submit that the Australian Energy Regulators (AER) current classification of SA Power Networks (SAPN) public lighting services be retained for the next regulatory control period commencing 1 July 2015.

The process of consumer engagement for both service and price enabled by the Negotiated Distribution Service Classification provides consumers the opportunity to better understand costs and to consider alternative services and tariffs from SAPN.

In addition, we have conducted several tariff rebalancing processes so that SAPN's SLUOS tariffs better reflect their costs and to provide better information for decision making by consumers.

Yours sincerely

Wendy Campana
Chief Executive Officer
