Mr Sebastian Roberts

General Manager, Network Regulation

Australian Energy Regulator

GPO Box 520

Melbourne 3001

We support the submission as given by Gavin McMahon of CIT and endorse his conclusion as below.

Whilst we support the AER's determination on the 2015/2020 Regulatory Proposal by SA Power Networks we believe that even further reductions are possible in both Operating Expenditure and Capital Expenditure without reducing the current service provided. We look forward to a decision that truly takes into account the long term interests of customers with the price reductions applied evenly to all customers.

Yours truly

A handwritten signature in black ink, appearing to read 'Nicole Ceracchi', with a small flourish at the end.
