Attachment 17.0 Confidentiality Claims
1. Access Arrangement RIN Response Confidentiality Claims

Attachment number	Document Name	Title, page, paragraph or table reference of the document containing the confidential information	Description of the confidential information	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Confidentiality category	Reason why the confidential information falls into the selected category. If information falls within 'other' please provide further details on why the information should be treated as confidential.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
1	Written Response					Not applicable		
2	Basis Of Preparation					Not applicable		
3	Workbook 1 - Forecast Data - Consolidated - Confidential					Not applicable		
4	Workbook 1 - Forecast Data - Consolidated - Public					Not applicable		
4	E2. Mains Repex	E2.1.1 Tables A & B E2.1.2 Tables A & B	Capex Unit Rates	Capex	Market sensitive cost inputs	This information contains underlying contractor unit rates which, if published, could affect our (and third-party service providers') ability to obtain competitive prices in future procurement processes.	Public disclosure of contractor costs for particular types of materials or services could set a floor in the market and therefore harm our commercial interests and ultimately increase costs passed onto customers.	While the detriment of publishing the information is clear, we are not aware of any public benefit that would arise from publicly disclosing this information.
4	E3. Main Augex	E3.1 Tables A & B	Capex Unit Rates	Capex	Market sensitive cost inputs	This information contains underlying contractor unit rates which, if published, could affect our (and third-party service providers') ability to obtain competitive prices in future procurement processes.	Public disclosure of contractor costs for particular types of materials or services could set a floor in the market and therefore harm our commercial interests and ultimately increase costs passed onto customers.	While the detriment of publishing the information is clear, we are not aware of any public benefit that would arise from publicly disclosing this information.
4	E4. Meter Replacement	E4.1.1.Tables A & B E4.1.4 Tables A & B	Capex Unit Rates	Capex	Market sensitive cost inputs	This information contains underlying contractor unit rates which, if published, could affect our (and third-party service providers') ability to obtain competitive prices in future procurement processes.	Public disclosure of contractor costs for particular types of materials or services could set a floor in the market and therefore harm our commercial interests and ultimately increase costs passed onto customers.	While the detriment of publishing the information is clear, we are not aware of any public benefit that would arise from publicly disclosing this information.
4	E5. Connections	E5.1.1 Table A (ii), (iv), (v) and totals, cell ranges D18:J21; D28:J31 and D33:J37; and Table B (ii), (iv), (v) and totals, cell ranges D49:J52; D59:J62 and D64:J68	Capex Unit Rates	Capex	Market sensitive cost inputs	This information contains underlying contractor unit rates which, if published, could affect our (and third-party service providers') ability to obtain competitive prices in future procurement processes.	Public disclosure of contractor costs for particular types of materials or services could set a floor in the market and therefore harm our commercial interests and ultimately increase costs passed onto customers.	While the detriment of publishing the information is clear, we are not aware of any public benefit that would arise from publicly disclosing this information.
4	E5. Connections	E5.2.1 Tables A, B, C, D & E	Connections capex – Unit rates	Capex	Market sensitive cost inputs	This information contains underlying (contractor) labour costs which, if published, could affect our (and third- party service providers') ability to obtain competitive prices in future procurement processes.	Revealing unit rates for procuring particular types of materials or services could set a floor in the market when procuring such services in the future. Disclosure could therefore harm our commercial interests and ultimately increase costs passed onto customers.	While the detriment of publishing the information is clear, we are not aware of any material incremental benefit from the AER publishing this information, as opposed to using it on a confidential basis.
4	E5. Connections	E5.4.2	Capital Contribution paid by a third parties to MGN	Customer contributions	Market sensitive cost inputs	Where there are three or less customer contributions this data can be used to estimate individual contributions paid by a customer.	Publicly disclosing this information could harm our and third-party's commercial interests.	There is no public benefit in publicly disclosing this information as it relates to individual customers not customers generally.
