Dear Sir,

## **Submission AER – Street Lighting**

Narromine Shire Council wishes to confirm its support of the joint submission of the 12 member councils of the Orana Regional Organisation of Councils (OROC) prepared on our behalf by Peter Halyburton of Energy & Management Services.

The proposed increases in the cost of street lighting for councils, particularly small rural communities as ours, are not sustainable.

We trust our concerns will receive the appropriate consideration in determining a fairer outcome for all parties.

Thank you for the opportunity to put forward our case, contained in detail in the abovementioned joint submission.

Yours faithfully,

  
Greg Lamont,  
**General Manager.**
