

Environmental

Policy Statement

Power and Water Corporation is committed to minimising its own adverse environmental impact and implementing programs to reduce resource use.

Power and Water Corporation is a Northern Territory Government Owned Corporation. Our mission is to be a respected utility provider to the community. Power and Water is committed to minimising its own adverse environmental impact and implementing programs to reduce resource use.

Power and Water will:

- comply with legislation, standards and industry codes of practice relevant to the corporation
- prevent pollution and minimise waste as much as is practicable to do so
- minimise any adverse impact on the environment from operations and activities
- ensure employees and contractors have the necessary information, training and supervision to meet regulatory requirements and Power and Water's environmental expectations
- undertake regular monitoring and strive for effective continuous improvement of environmental systems and processes
- develop and review meaningful objectives and targets in line with the Statement of Corporate Intent to measure performance

- ensure this policy is actively communicated, displayed and made available to employees, relevant stakeholders and the public
- ensure employees understand how their individual actions can make a difference and will work together to continually improve our environmental performance
- periodically review this policy so that it remains relevant and appropriate to the Statement of Corporate Intent.

This policy applies to all Power and Water employees, apprentices, contractors, consultants and suppliers undertaking work on behalf of Power and Water.

Michael Thomson
Chief Executive
Power and Water Corporation
