EXCEL TEMPLATE EXPLANATION

This reporting template is for each TNSP to report its service performance against the market impact parameter of the service target performance incentive scheme.

It only applies to the TNSP for the period set out in the Input Performance worksheet of the TNSPs current regulatory period.

The TNSP will need to submit its performance data in a separate template for validation .

Exclusions for Service Target Perfomance Incentive Scheme

| Exclusion | Defined Exclusion | Further description | Reference |
|----------------------------------|--------------------------------------|--|--|
| Number 1 | Force majeure | As defined in the Force Majeure definition worksheet and Appendix E of the Service Target Performance Incentive Scheme (March 2008) p. 51 | Service Target Performance Incentive Scheme (March 2011) p. 54 |
| 2 | Credible contingency events | Any network constraints that are invoked to manage the reclassification of non-credible contingency events to credible contingency events as per clause 4.2.3 (f) of the NER | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 3 | 3rd party outage | Any outages shown to be caused by a fault or other event on a '3rd party system' e.g. intertrip signal, generator outage, customer installation | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 4 | Non-prescribed transmission services | Any outages on assets that are not providing prescribed transmission services | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 5 | Safety reasons | Any outages for personal safety that are not related to the activity of owning or operating a transmission network | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 6 | Operational sercurity | Any outages that are only for the purpose of assisting with operational sercurity, for example where a lower voltage parallel circuit is taken out of service to assist with transfers across an interconnector | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 7 | Network support services | Any network constraints related to network support services in accordance with clause 5.6.2 of the NER | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 8 (a) 8 (b) | Others | Dispatch intervals (for a network outage constraint) that are affected by: (a) a manifestly incorrect input to the dispatch algorithm as determined by AEMO under clause 3.9.2B of the NER) (b) a constraint applied by AEMO that does not accurately reflect or is otherwise inconsistent with that network capability that the TNSP advised AEMO | Service Target Performance Incentive Scheme (March 2011) p. 49 |
| 8 (c) 8 (d) 8 (e) 8 (f) | | (c) a scheduling error (d) mandatory restrictions under clause 3.12A if the NER (e) AEMO declaring the spot market suspended under clause 3.14.3 of the NER, or (f) an administered price cap under clause 3.14.2 of the NER | |

Service Target Perfomance Incentive Scheme - Definition of Force Majeure

| Definition of Force Majeure | Reference |
|---|--|
| For the purpose of applying the service target performance incentive scheme, force majeure events means any event, act or circumstance or combination of events, acts and circumstances which (despite the observance of good electricity industry practice) is beyond the reasonable control of the part affected by any such event, which may include, without limitation, the following: | Service Target Performance Incentive Scheme (March 2011) p. 54 |
| - fire, lightning, explosion, flood, earthquake, storm, cyclone, action of the elements, riots, civil commotion, malicious damage, natural disaster, sabotage, act of a public enemy, act of God, war (declared or undeclared), blockage, revolution, radioactive contamination, toxic or dangerous chemical contamination or fore of nature. | |
| - action or inaction by a court, government agency (including denial, refusal or failure to grant any authorisation, despite timely best endeavour to obtain same) | |
| - strikes, lockouts, industrial and/or labour disputes and/or difficulties, work bans, blockades, picketing | |
| - acts or omissions (other than failure to pay money) of a party other than the TNSP, which party either is connected to or uses the high voltage grid or is directly connected to or uses a system for the supply of electricity that in turn is connected to the high voltage grid | |
| - where those acts or omissions affect the ability of the TNSP to perform its obligation under the service standard by virtue of that direct or indirect connection to or use of the high voltage grid | |
| In determining what force majeure events should be excluded the AER will consider the following: | |
| - was the event unforeseeable and its impact extraordinary, uncontrollable and not manageable? | |
| - does the event occur frequently? If so, how did the impact of the particular event differ? | |
| - could the TNSP, in practice, have prevented the impact (not necessarily the event itself)? | |
| - could the TNSP have effectively reduced the impact of the event by adopting better practices? | |
