Delivering better value

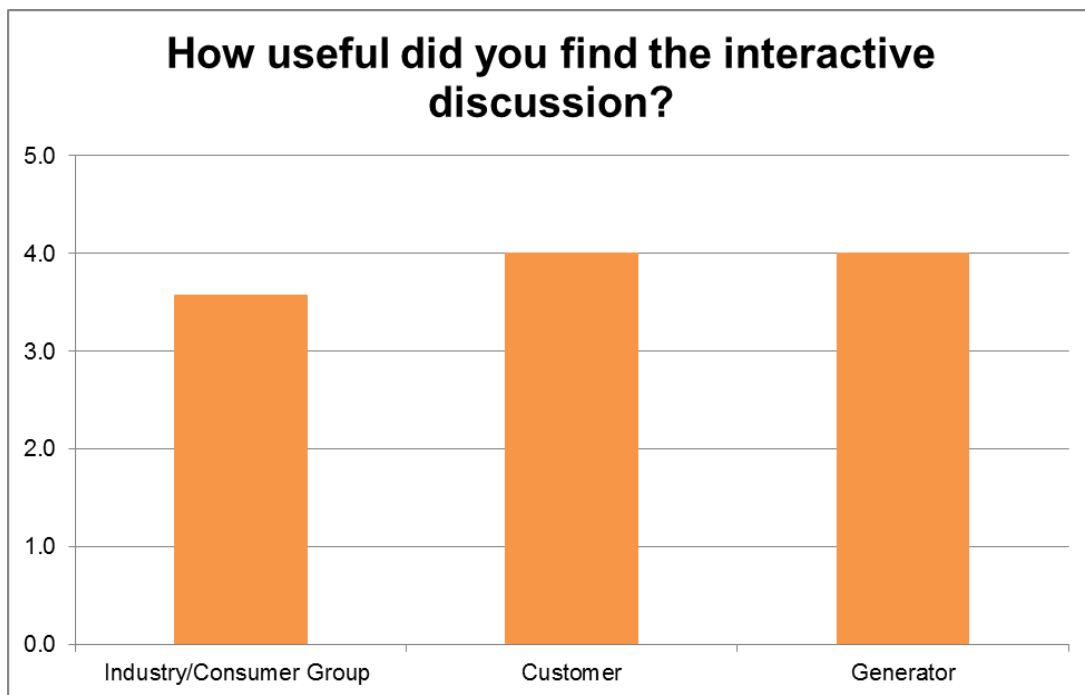

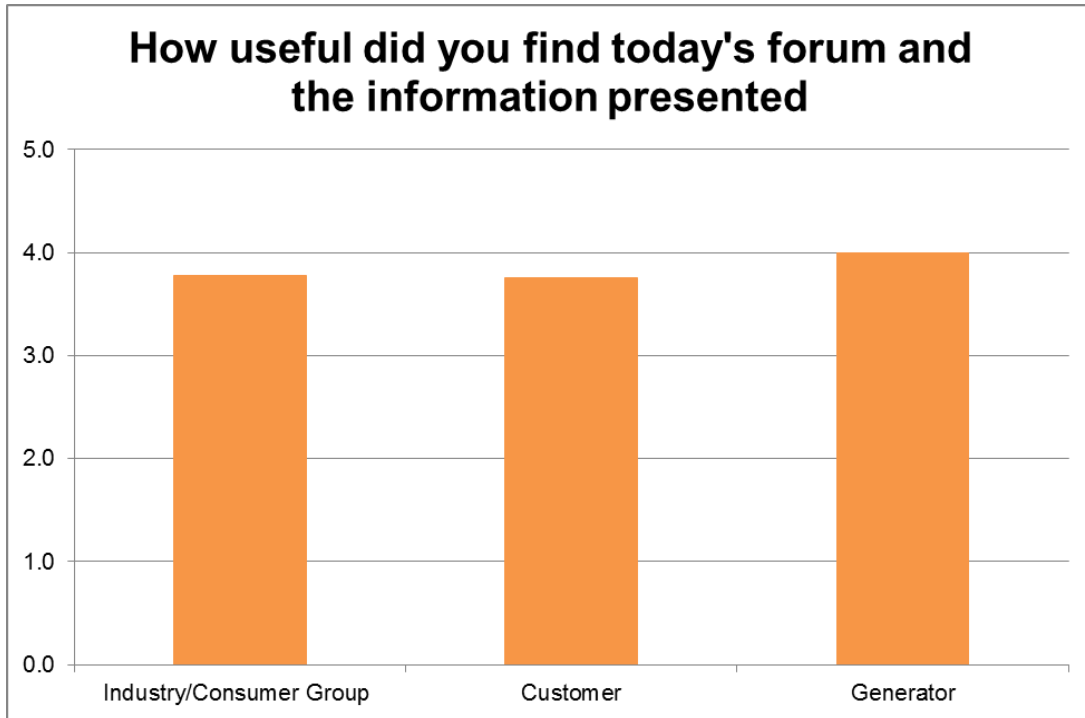

# Powerlink CQ/SQ Area Plan Forum Participant Feedback Report

October 2015

To rate the effectiveness of the CQ/SQ Area Plan Forum and identify areas for future improvement, participants were asked to complete a feedback form.

Participants were asked to rate on a scale of 1 to 5 (1 being not very useful to 5 highly useful) the information presented at the forum and in the individual breakout sessions. The results are shown below:

Participants were also asked to provide any other specific feedback they had on the forum. The below shows the responses received:

*Good for PQ to seek stakeholder input*

*Like the idea of early discussion rather than wait until major options report released*

*Positive initiative*

*Kept in the loop when key developments/milestones occur.*

*Facilitator and presenter created a warm, open and friendly climate for discussion*

*Interesting and informative*

*Way outside my expertise - so at best I have uniformed opinions*

*Not quite enough time to get an understanding of the material and then have the discussion and input  
Good session*

*Some ambiguity in meaning of criteria meant it took a while to get focusing on the feedback you were seeking*

*Appreciated the opportunity to contribute at this early stage. Approach is great!*

*Some additional slides on CQ-SQ presentation to cover the Western infrastructure so context and impact better understood.*

*Good to hear different stakeholder feedback*

*Possibly allow for more time for discussion*
