30 April 2018

Warwick Anderson  
General Manager  
Networks (Finance and Reporting)  
Australian Energy Regulator  
GPO Box 3131  
Canberra ACT 2601

Dear Warwick,

### **Powerlink Registration of Existing Dedicated Connection Assets**

Powerlink Queensland (Powerlink) is writing to notify the Australian Energy Regulator (AER) of its Existing Dedicated Connection Assets (DCA) in accordance with section 11.98.2 of the National Electricity Rules (Rules).

Grandfathering provisions associated with new Transmission Connection and Planning Arrangements under the Rules require Powerlink, as an Existing DCA owner, to notify the AER of prescribed information relating to those assets by 1 May 2018.

Powerlink has listed each of its Existing DCA (refer to Attachment 1), and for each of these has:

- classified the DCA as a large DCA or a small DCA;
- identified the location of the asset; and
- identified the route of the asset.

The list of Existing DCA includes all DCA for which Powerlink is the owner, controller and operator. In developing the list, Powerlink has taken into consideration works that are contracted to be constructed under an existing Connection and Access Agreement.

As the AER would be aware, Powerlink is a registered participant under the Rules as a transmission network service provider.
