

RETAIL REPORTING DEADLINES

Performance: The [Retail Market Performance Reporting Procedures and Guidelines](#) specify the manner and form in which regulated energy entities must submit information and data to the AER relating to their performance. The AER has also released a [Guidance Note](#), aimed at reducing errors by retailers in performance reporting. The retail market performance reporting template is located under the *key documents* section.

Compliance: Reporting dates (and all other relevant information) are set out in the [AER Compliance Procedures and Guidelines](#). Compliance reporting templates can be accessed here: [Compliance Reporting Template](#).
