**South Australia
Draft distribution determination
2010-11 to 2014-15**

Thank you for the opportunity to comment upon the *South Australia Draft distribution determination 2010-11 to 2014-15*.

TRUenergy, in principle, supports the unbundling of metering related charges for small customers to reduce the barriers to entry faced by alternative metering providers.

However, the transition from bundled to unbundled metering charges will require system changes. TRUenergy would not be able to complete these changes in the necessary time required between the final decision and the proposed 1 July 2010 start date.

We therefore request that the introduction of unbundled metering changes be delayed until 1 July 2011.

Please contact me on (03) 8628 1122 if you require additional information.

Yours sincerely,

Graeme Hamilton
Regulatory Development Manager
