Our operations will be confined to Queensland, specifically to customers in south east Queensland connected to the Energex network.

## 2.10 Customer Types

We will sell electricity to small customers, defined under Section 5 of the National Electricity Retail Law. We will also sell to business customers that consume over the upper consumption threshold, defined as large customers under section 5 of the National Electricity Retail Law. More information is provided in:

- Appendix A: The Rush Energy Strategic Plan 2020-23 (Sections: *Target Market, p11; Potential for Growth, pp12-14*)

# 3 Organisational and Technical Capacity

## 3.1 Energy Market Experience

As a new company Rush Energy does not have a history of retail or energy market operations. However, we recognise the necessity of this experience to receive an

---

energy retail licence and for the new business to achieve sustainable operations and growth.

Accordingly, we will bring in relevant knowledge and experience through our executive team and sourcing of key service providers and advisors. Details of these arrangements are included with our application:

- Appendix A: The Rush Energy Strategic Plan 2020-23 (Section: *Operations*, pp 25-32)
- Appendix B: Service Provider Key Facts
- Appendix C: Organisation Structure

This information is summarised below:

## **3.2 Other Relevant Retail Experience**

### **3.2.1 Rudi du Preez (Chief Executive Officer)**

Rudi du Preez is an experienced Managing Director with over a decade of experience in the Information Technology sector. Originally from South Africa, Rudi has built a reputation for innovation and customer service on the Sunshine Coast. His previous ventures include Pro Computers, where he led technology service delivery for clients in a range of sectors. He was promoted to Managing Director in 2004 and implemented a successful management buy-out in 2009. Since then he has recently partnered with Amber Werchon to perform real estate sales in the Sunshine Coast market. He outperformed all new sales agents within 12 months and is now in the top ten ranked sales agents at Amber Werchon.

A more detailed summary of Rudi du Preez's experience is included in:

- Appendix K

### **3.2.2 Kate Tennett (Board Member)**

Kate Tennett is a member of the board and has experience across a broad range of sectors. Her experience includes managing information technology projects for mission critical trading systems at the UK National Grid. She has performed senior roles managing large teams within the New Zealand government, focusing on web media and

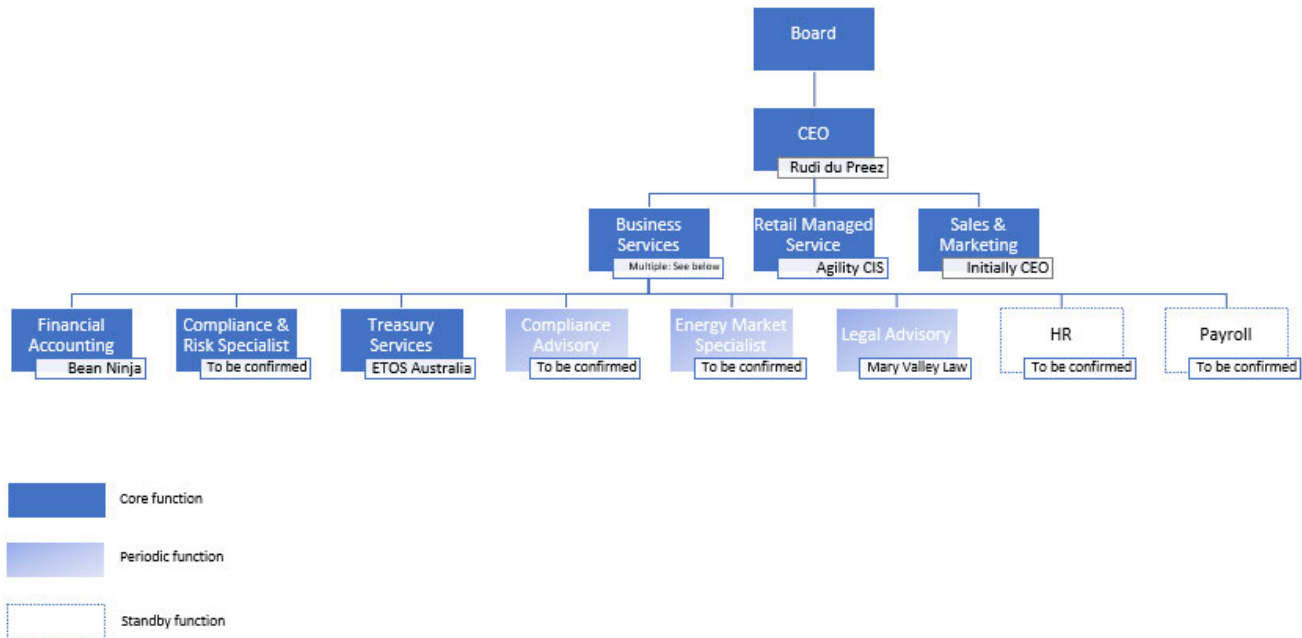

education. Most recently she has been involved with various business mentoring schemes on the Sunshine Coast and has extensive business networks in the local food and drink sector.

A more detailed summary of Kate Tennett’s experience is included in:

- Appendix ZB

### 3.3 Organisational Chart

Figure 1: Rush Energy Organisational Chart effective at 1 November 2020

An organisational chart is also provided in:

- Appendix C: Organisation Structure

### 3.4 Number of Employees

Rush Energy is a small electricity retailer start-up, designed and built in accordance with a lean and agile model. We will have two core employees: our CEO and a Compliance and Risk Specialist. The Compliance and Risk Specialist will be recruited after:

- authorisation has been received from the Australian Energy Regulator for Rush Energy to perform retail functions has been received,

---

and before:

- our operations commence.

Our operations, including front line and back office services, will be fully backed by a range of specialist service providers and advisors. The business architecture is shown in the organizational structure above.

### **3.5 Outsourced Functions**

Functions that have been outsourced are described in Appendix A: The Rush Energy Strategic Plan 2020-23 (sections: *Operations*; pp25-32). Outsourced functions have also summarised in Appendix B: Service Provider Key Facts, which includes:

- a summary of our service providers' experience and relevant knowledge
- evidence of our service providers' technical capacity to meet relevant obligations
- evidence of controls in place to ensure compliance of our service providers with the National Electricity Retail Law and National Electricity Retail Rules.

We have supplied letters from our core service providers confirming that contractual arrangements are in place for necessary support services, as follows:

- Appendix ZD: Agility CIS Confirmation of Service Provision
- Appendix ZE: ETOS Australia Confirmation of Service Provision

We recognise the importance of managing wholesale electricity market risk, and have a Market Risk Strategy that includes how we will procure specialist services to help manage this risk at key points in our operations:

- Appendix W: Market Risk Strategy

### **3.6 Business Plans**

A detailed business plan is provided with our application. Refer to Appendix A: The Rush Energy Strategic Plan 2020-23. This plan includes:

- A description of our business (section: *The Company*, pp6-8)
- An analysis of the market we will operate in (sections: *Industry Analysis*, pp8-11, *Market Analysis*, pp11-15, and *Detailed Competitor Analysis*, pp42-46)
- Our objectives and the strategies we will use to achieve them (section: *Marketing and Sales Strategy*, pp16-23)

- 
- Our operating forecasts for the 2020-23 period, including our customer acquisition targets (sections: *Marketing and Sales Strategy*, pp16-22 and *Financial Data Assumptions and Highlights*, pp39-40)
  - A cashflow analysis over the 2020-23 period (section: *Daily Cashflow Statement*, p42)

### **3.7 Compliance and Risk Management Strategies**

We have developed the following frameworks relevant to managing our obligations to customers under the National Electricity Retail Law and National Electricity Retail Rules:

- a Compliance Standard & Framework developed in accordance with the principles of AS ISO 19600:2015 *Compliance Management Systems*
- A Risk Management Standard & Framework developed based on the guidelines of ISO 31000:2018 *Risk Management*

Both frameworks have been endorsed by our Board and are provided with our application:

- Appendix D: Compliance Standard & Framework
- Appendix E: Risk Management Standard & Framework

The frameworks and their supporting documents and systems have been subjected to an external assurance process using an independent auditor. The independent auditor report is provided with our application:

- Appendix F: Auditor Review of Risk and Compliance Systems

As part of our compliance preparations, we have developed standard retail contracts consistent with the regulatory requirements for the jurisdiction we will operate in (south east Queensland). These are included with our application:

- Appendix G: Standard Retail Contract

In accordance with our Risk Management Standard and Framework and Compliance Standard and Framework, we have developed business controls, tools and procedures, including the following, which have been submitted as part of our application:

- Appendix Y1: Compliance Action Calendar

- 
- Appendix Y2: Quarterly Compliance Report Template
  - Appendix Y3: Obligations Register
  - Appendix Y4: Compliance and Risk Specialist Position Description
  - Appendix X1: AER Reporting Procedures
  - Appendix X2: Compliance Incident and Breach Management Procedures
  - Appendix X3: Clean Energy Regulator Procedures
  - Appendix X4: Critical Payment Procedures
  - Appendix Z: Risk Register

### **3.8 Energy and Water Ombudsman for Queensland**

On 3 November 2019 we received a letter from the Energy and Water Ombudsman Queensland relating to our pending retail operations in south east Queensland and membership of the Queensland ombudsman scheme. This is provided with our application:

- Appendix H: EWOQ Registration Response

### **3.9 Agreements with Market Participants**

#### **3.9.1 The Australian Energy Market Operator**

We commenced a registration process with AEMO to become a market participant on 30 April 2020.
