RE: Blue Aurora Pty Ltd - Application for an individual exemption

Dear Angela,

We would like to vote in FAVOUR to the proposed application and would like BLUE AURORA Pty Ltd to be granted an individual exemption to hold a retailer authorization under the National Energy Retail Law to continue to sell energy at Cairns Beach Resort.

The methodology used by Blue Aurora Pty Ltd for calculation electricity consumption shares through the existing infrastructure of "embedded electricity network" at Cairns Beach Resort seems to be fair, well explained in the invoices and news letters, and well suited the situation. We believe Blue Aurora Pty Ltd acts in best interest of unit owners.

Granting the individual exemption for Blue Aurora Pty Ltd would legalise the existing status quo, and set certain regulations to the way the energy is distributed in the resort. In our opinion all unit owners would benefit from this decision.

Yours sincerely,

Victor and Louisa Rull
