Subject: FW: Submission to AER in relation to Electricity Distribution Ring Fencing Guideline - Essential Energy Waiver Application to "Ring Fencing Guideline" Provider Of Last Resort
Attachments: Electricity Distribution Ring Fencing Guideline - DNSP Essential Energy Application for Waiver - Comments.pdf

Dear Ms Groves

Country Power Line Constructions is an Accredited level 1 ASP operating across NSW from a base in Dubbo. We have undertaken a number of projects in the more remote areas of the state (Broken Hill, Cobar, Pooncarrie, Wilcannia, Tilpa, Engonnia) . We are unaware of customers not being able to receive services for network connection at competitive prices.

We concur with the sentiments of Energyserves's submission to the AER in respect of Essential Energy obtaining a waiver from Ring Fencing Guidelines.

Please do not hesitate to contact me directly if you require further information.

Regards,

Jeff Temesvary
