Dear Mr Pattas

Revisions lodged by GasNet Australia (Operations) Pty Ltd for the Victorian Principal Transmission System

TRUenergy welcomes the opportunity to comment on GasNet Australia (Operations) Pty Ltd's (GasNet) proposed draft GasNet Access Arrangement (AA) and draft GasNet AA Information in relation to the principal transmission system (PTS) to apply in the Third Access Arrangement period commencing 1 January 2008.

The response outlines the views that TRUenergy has regarding the revisions to the GasNet's AA as a major buyer, shipper and retailer of gas to Victorian consumers. We believe that this gives us an informed and possibly even unique appreciation of the issues associated the proposed revisions to GasNet's access arrangement. Therefore, we urge the commission to give serious consideration to the issues that we raise in response to the proposed revisions submitted by GasNet.

For further information on this submission, in the first instance please contact Mr Con Noutso, Manager Regulation (Access), at TRUenergy on telephone (03) 8628-1240 or at con.noutso@truenergy.com.au.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'C Botto'.

Carlo Botto
