

Reset RIN Response – Transmission Map

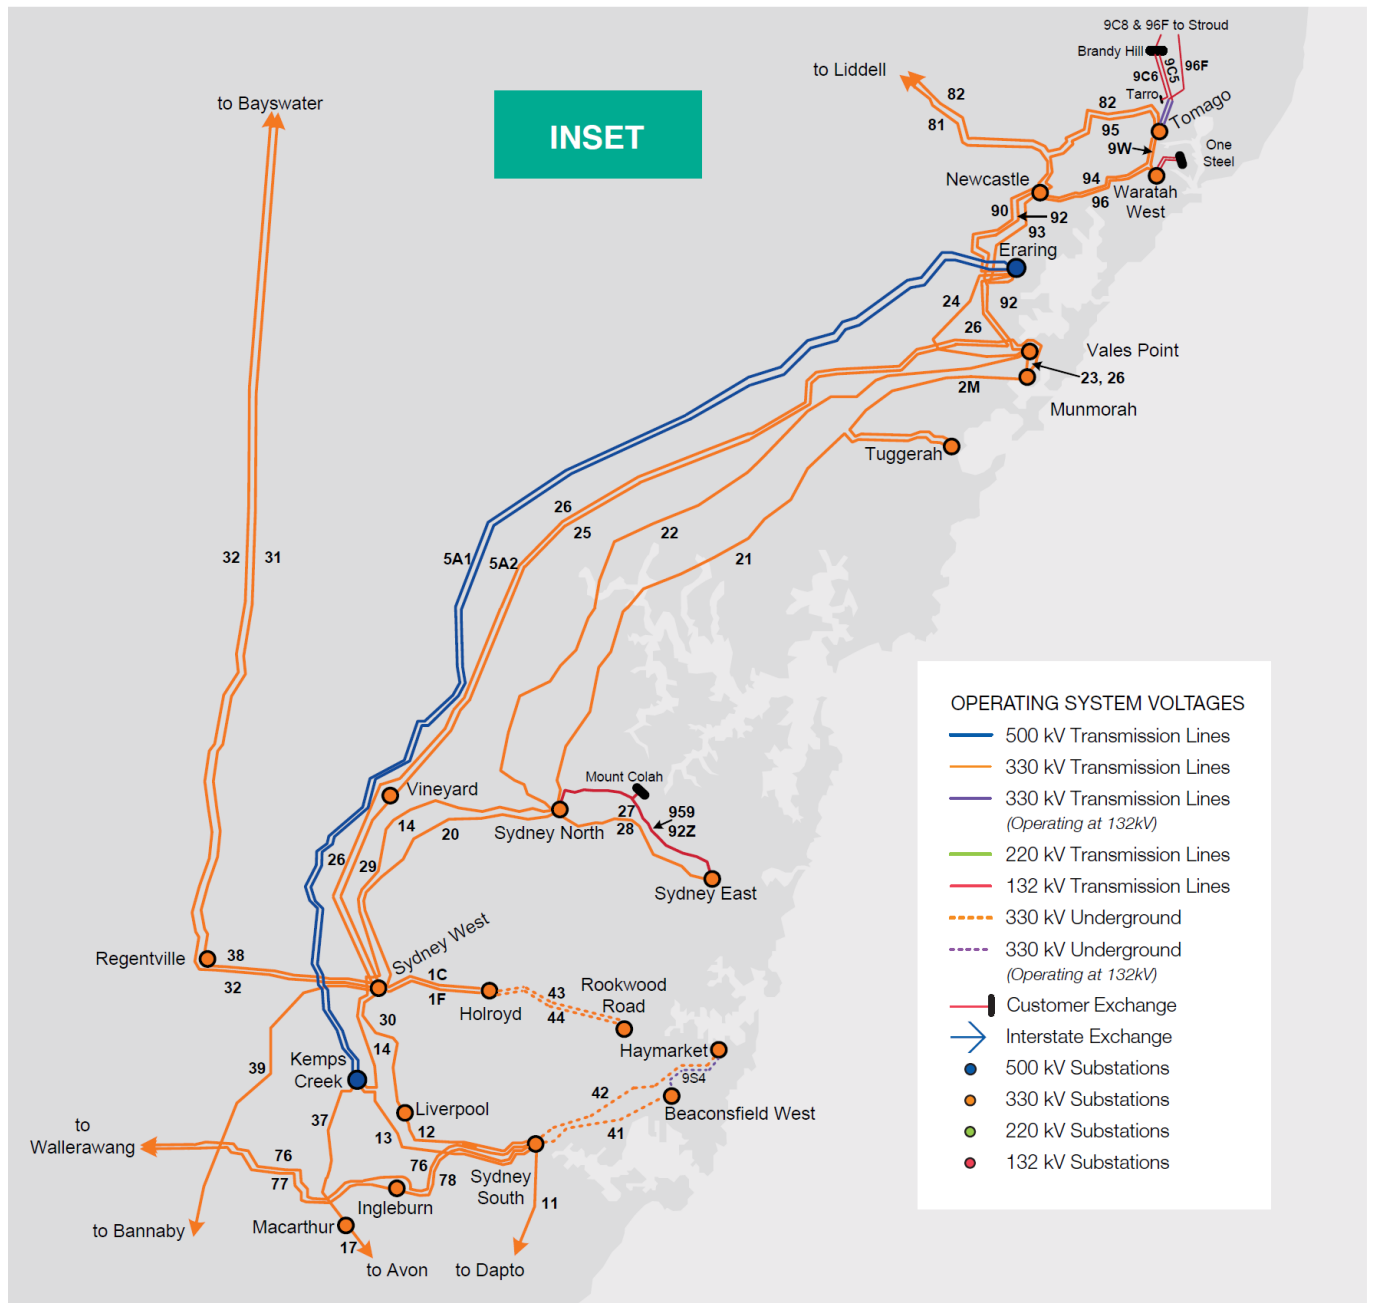

2018/19 – 2022/23

Schedule 1: 23. Map of Transmission System

23.1 Provide a map of TransGrid's transmission system at the time of submitting information in response to this notice. This map, together with any appropriate accompanying notes, should identify and describe the locations and voltages of existing transmission lines and other major network assets.

TransGrid's electricity network map

23.2 Provide a separate document identifying the locations and different ratings of the transmission lines and other major network assets.

This is provided in the separate document submitted as the RIN supporting document TransGrid - Reset RIN Transmission map location and rating – 0117 - PUBLIC
